

```
import javax.swing.JOptionPane;

public class PlayGame {
    public static void main(String[] args) {
        int playAgain;
        do{
            Bagels myBagels = new Bagels();
            myBagels.playGame();
            playAgain=JOptionPane.showConfirmDialog(null, "Would you
like to play"
            + " again?",
            "Play Again", JOptionPane.YES_NO_OPTION);
        }
        while (playAgain==0);
        System.out.println("Thank you for playing!");

    }
}
```
