UNSETTLED BLANKET CO.

[Who We Are]

We are happily unsettled in the heart of Philadelphia. We share our home with 650 who don't actually have a home. That's the driving force behind why The Unsettled Blanket Company is striving to make the world a warmer (and better) place. Our blankets are made right here in the US of A. Our materials are sourced from high-quality American companies. We use UCAN Zippers to create our cocoon functionality, which helps retain heat and is great for camping. The flannel in our blankets is made from Cleaner Cotton® cotton, top-notch fleece, and the finest down filling. We believe that these great materials coupled with the best craftsmanship create a blanket good enough to be called the "Ultimate Blanket".

We work with The Homeless Action Team to employ homeless living on the streets. HAT helps get homeless off the streets in Center City, Philadelphia by finding them work. Once employed (with The Unsettled Blanket Company), HAT places these people into shelters, with the ultimate goals of leaving the shelter and living a life of self-sufficiency

[How We Do It: The Anatomy of the Ultimate Blanket]

[Our Purpose]

With hundreds of Philadelphians literally living on the streets in Center City, we believe homelessness is a HUGE issue. That's why we employ these people right off the streets. We provide them with fair, living wages and great working conditions. But we don't stop there. For every blanket we sell, we donate the same blanket to a homeless person in need - talk about a good cause.
