

Playboy Mansion: XXXbox Edition

The best way to indulge gamers to invest more into Xbox is to penetrate into their inner desires. With Playboy Mansion: XXXbox Edition, players can enter a world of voluptuous temptations and experience life as Hugh Hefner. Playboy Mansion: XXXbox Edition utilizes the Kinect accessory to let players imitate being in the Playboy Mansion and immerse themselves in guilty pleasures. The main source of income comes from a premium subscription which offers more content, and downloadable content of consumer's favorite porn actresses.

Playboy Mansion: XXXbox Edition uses the Kinect camera to let players live as the famous Hugh Hefner and experience the life of living in a mansion full of wondrous beauties. The game utilizes live film from the Playboy Mansion and let players indulge in lustful games with the "bunnies" that stay there through the Kinect interface. Through Kinect the players can interact with prerecorded Playboy bunnies and play games with them in the mansion. These games utilize the Kinect motion sensor and have players do certain actions to play the game. By paying a premium subscription, players can unlock more lustrous games and "bunnies" to play with.

Playboy Mansion: XXXbox Edition main source of income comes from our premium subscription, and DLC's offered through Xbox Live. The game itself cost \$4.99 but players can also buy a gold subscription of \$14.99 that allows them to gain access to more areas of the mansion, more mini-games, and DLC. DLC is offered from a range of \$0.99 - \$2.99 and can only be used if the player has a premium subscription. There is some risk as this will allow adult features on a market place that is opened to all ages.
