SharePoint

By investing in Microsoft SharePoint our organization will generate a net benefit of $1,846,250 over the next three years. SharePoint is a secure platform capable of storing, organizing, sharing, and accessing information. By investing in this platform our revenue will increase due to the increase in available hours resulting from the reduction of time spent on collaborating and managing documents.

The key capability of Microsoft SharePoint is documentation efficiency. SharePoint will simplify the task of managing and sharing documents by allowing everything to be stored in one individual location. Due to the individual location, efficiency is maximized when dealing with storing, managing, and editing documents. By allowing our PMP's to spend less time working with documentation our organization will be able to take advantage of 400 newly available hours to focus on their designated projects and clients.

The investment to Microsoft SharePoint will cost a total of $253,750 over the three year time period. This cost includes the hardware, annual maintenance, and all support costs. When analyzing the investment over a three year period our organization will see a $2.1 million increase in revenue from 400 newly available billing hours and generate a net benefit of $1.8 million.

Benefits	Year 1	Year 2	Year 3	Total
PMP with SharePoint	3,325,000	3,325,000	3,325,000	9,975,000
PMP without SharePoint	2,625,000	2,625,000	2,625,000	7,875,000
Total Benefits	700,000	700,000	700,000	2,100,000

Costs	Year 1	Year 2	Year 3	Total
SharePoint	100,000	0	0	100,000
Maintenance	18,000	18,000	18,000	18,000
PMP SharePoint Expert	33,250	33,250	33,250	99,750
Total Costs	151,250	51,250	51,250	253,750

	Year 1	Year 2	Year 3	Total
Net Benefits	3,173,750	3,273,750	3,273,750	1,846,250
