Sharepoint Flash Research

If our company implements Sharepoint, it will obtain a net benefit of \$1,846,250 over three years. Sharepoint is a collaboration tool that will help our PMPs share and work on documents with increase billable hours. Additionally, it will eliminate our backlog of work.

Sharepoint is software that proved easy to use designed to increase efficiency and productivity. It allows the team to collaborate on documents quickly and safely by providing fast access using a secure connection. Sharepoint has an easy-to-use interface and pre-made templates which will decrease the time it takes to learn and create documents. Sharepoint also offers versioning and document collaboration tools which makes viewing documents more accurate.

Sharepoint increases our PMT's billable hours by 400. An increase of \$210,000 more revenue per PMP totaling at \$2,100,000. The cost of hardware and software, maintenance, and unbillable hours is \$253,750. In three years, the company will net a benefit of \$1,846,250

Cost	Year 1	Year 2	Year 3	Total
