EXPERIENCE: VITRIS WIRELESS, LLC, Philadelphia, PA President/CEO

May 2015 – Current

- Developed business plan, partnered with the right people to execute the plan, shifted plan when necessary, raised over \$100,000 in capital through a mix of venture firms and business plan competitions.
- Designed and built both the frontend UI of the Vitris platform and the database architecture, incorporating aspects of modern design and data structure efficiency.
- Contacted and formed relationships with decision makers at small service based businesses, to use our software and up sell them on our paid tier subscriptions

SKILLS & INTERESTS:

- Search Engine Optimization Specifically utilizing schema.org's structured data documentation to increase website conversion through rich cards and other features native on Google's search platform.
- Blockchain Challenging myself with how firms can utilize distributed ledgers to replace traditional applications and what's the business case for making the transition.
