Project Dashboard

Project Name:	Maptivities	**Project Status:** Y
Project Description:	Locating events and activities such as concerts, art shows, fairs, festivals, and beer gardens that would otherwise be unknown due to little to no advertising. Venues and promoters will be able to add their events to this application so customers will be able to find them and attend. This application will be a central hub for users to find events and will be far more convenient than searching various websites. The users will be able to sign into the application through social media accounts such as Facebook.	
Customer	Local businesses hosting events and activities, general public	
Project Core Team:	Stan Okoro, Chris Rosentreter, Zirui You, Dan Genuario	
Next Milestone:	Complete prototype

Major Accomplishments/Decisions

Last week we met as a team and our project mentor discuss the business plan of our project. We also concluded to narrow our scope and to create only one persona for the prototype instead of two. We are also creating a more detailed schedule with tasks.
