Project 2
SAP

This project gives you an opportunity to try SAP, considered to be the industry leader in ERP (Enterprise Resource Planning) systems. You will find your SAP userids, initial passwork, link to the system and the system/client numbers (GB? and ???) that you will need to logon. Other documentation might refer to different numbers, so use only the system and client number you find with your userid.

The assignment consists of two hands on exercises using SAP for a fictitious company, Chuck’s Bikes, Inc. These two exercises are:

1. Procure to Pay (P2P)
   a. Read page 61 in your etext, Processes, Systems and Information: An Introduction to MIS. Pay close attention to the questions.
   b. Using the account and password assigned to you, work your way through Appendix 7 – SAP Procurement Tutorial.
   c. Answer the questions on page 61. Keep your answers short and to the point.

2. Order to Cash (O2C)
   a. Read page 109 in your etext, Processes, Systems and Information: An Introduction to MIS. Pay close attention to the questions.
   b. Using the account and password assigned to you, work your way through Appendix 8 – SAP Sales Tutorial.
   c. Answer the questions on page 109. Keep your answers short and to the point.
