

MIS 5208 – Data Analytics for IT Auditors and Cybersecurity

Lab 01: Install ACL

Ed Ferrara, MSIA, CISSP
TUG05176@temple.edu

Mission and Learning Objectives

- Understand how to organize and analyze control data
- Understand the principles of transaction-oriented data, and how to store and retrieve data for data sources.
- Understand methods to identify ways in which perpetrators compromise data to affect fraud.
- Identify and compare sources and methods of capturing data throughout a business process.
- Use data mining techniques to identify associations and trends among data.
- Apply data mining techniques to examine control efficacy.
- Integrate data across multiple sources, transforming it into a single view.
- Understand and select appropriate data visualization techniques to effectively communicate the results of an analysis effort.
- Communicate analysis results to stakeholders for ongoing quality assurance and process improvement.

Presentations

- Later in the course you will be asked to present your lab findings on a selective basis – either individually or as a group
- Ideas and proposals in business are now typically communicated via “decks”. Often these decks are not even presented in the formal sense, they just get emailed to the recipient. You need to learn how to communicate your ideas using decks. This is an important skill. You can be the best analyst in the world but if you cannot get your ideas across...
- Writing skills are important but we tend to overemphasize correct grammar and form – not necessarily simple and direct communication – the essence of creating good decks.
- Each slide in your deck should be crafted just like you would craft a canvas of a painting!
- The Cognitive Style of PowerPoint by Edward Tufte (34 Pages)
- Presentation Skills Video: <https://www.youtube.com/watch?v=ayxfblOyUBY> (3:56)
- Presentation Skills Video: <https://www.youtube.com/watch?v=VVp8UGjECt4> (5:20)
- Presentation Skills Video: <https://www.youtube.com/watch?v=whTwjG4ZIJg> (7:18)

ACL Login Screen

The image shows the ACL login interface. On the left is a white login form with the ACL logo, a username field containing 'TUG05176@temple.edu', a password field with masked characters, a green 'SIGN IN' button, and links for 'Reset password' and 'Contact support'. Below these is a link for 'Sign in to a custom domain'. On the right is a large blue banner with a green ribbon that says '★ FALL '17 RELEASE ★'. The main text on the banner reads 'THE FALL RELEASE IS NOW LIVE!' and there is an orange button at the bottom that says 'Click here for all the details >>'.

Download & Install ACL

The screenshot shows the ACL website interface. At the top, there are navigation icons for 'ACL for Windows' and 'Add-in for Excel'. The main content area is divided into several sections. A red box highlights the 'ACL for Windows' section, which includes a 'Download Version 13.0.1' button and a red arrow pointing to it with the text 'Click Here'. Below this is a 'Patch available for ACL for Windows' section with a 'Download Patch' button. To the right, there is an 'ACL Direct Link' section with a 'Download Version 8.0.1' button. At the bottom, there are three columns of text: 'Instructions', 'Activation / Other Info', and 'Installing ACL Direct Link'.

ACL for Windows
Connect to any data, analyze any risk and visualize your results
Access the world's most trusted data-driven GRC tool by downloading and installing the latest version of ACL for Windows. The ACL for Windows installation package contains ACL Analytics, Analysis Apps, and Offline Projects.

Expand your experience with
ACL Direct Link
Remove barriers to data access and tap powerful intelligence hidden in SAP. Now certified for SAP S4/HANA.
Not sure what this is? Learn more about [Direct Link](#)
Download Version 8.0.1
20.7 MB | 2017-05-19

Instructions
To install:
1. Download the ACL for Windows installation package by clicking the link above.
2. Close all other Windows applications.
3. Double-click the installation package and follow the instructions.
For more information, see [ACL for Windows Installation and Activation Guide](#)

Activation / Other Info
After you have installed ACL for Windows, you need to activate it using your ACL user ID and password.
The activation assigns one of your organization's subscription licenses to you.

Installing ACL Direct Link
Direct Link requires that ACL Analytics and the SAP GUI are already installed on your computer.
For help with the installation, see [Installing Direct Link](#)

Run the Installer

The screenshot shows the ACL for Windows website interface. The main content area is divided into several sections:

- ACL for Windows:** A section with a green 'Download Version 13.0.1' button. Below the button, it says '740 MB | 2017-12-20'. Text above the button describes connecting to data and analyzing risk.
- Patch available for ACL for Windows:** A section with a 'Download Patch' button. Below the button, it says '8.51 MB | 2017-12-20'. Text above the button explains that the patch updates ACL Analytics to version 13.0.1.
- ACL Direct Link:** A section with a 'Download Version 8.0.1' button. Below the button, it says '20.7 MB | 2017-05-19'. Text above the button describes removing barriers to data access in SAP.
- Instructions:** A section with a list of three steps: 1. Download the ACL for Windows installation package... 2. Close all other Windows applications. 3. Double-click the installation package and follow the instructions.
- Activation / Other Info:** A section with text explaining that after installation, users need to activate it using their ACL user ID and password, and that activation assigns one of their organization's subscription licenses to them.
- Installing ACL Direct Link:** A section with text stating that Direct Link requires ACL Analytics and the SAP GUI to be already installed.

At the bottom of the page, a Windows security warning dialog box is open, asking 'What do you want to do with ACLforWindows1301.exe (740 MB)? From: downloads.acl.com'. The dialog has buttons for 'Run', 'Save', '^', and 'Cancel'. A red arrow points to the 'Run' button with the text 'Choose Run'.

Run the Installer

The screenshot shows the ACL for Windows website interface. At the top, there are navigation links for 'ACL for Windows' and 'Add-in for Excel'. The main content area is divided into two columns. The left column features the 'ACL for Windows' section, which includes a description of the tool, a 'Download Version 13.0.1' button (740 MB | 2017-12-20), and a 'Patch available for ACL for Windows' section with a 'Download Patch' button (8.51 MB | 2017-12-20). The right column features the 'ACL Direct Link' section, which includes a description, a 'Download Version 8.0.1' button, and a 'Learn more about Direct Link' link. A 'User Account Control' dialog box is overlaid on the page, asking 'Do you want to allow this app to make changes to your device?'. The dialog box title is 'User Account Control' and the publisher is 'ACL for Windows Self-Extracting Installer'. The 'Yes' button is highlighted with a red box and a red arrow pointing to it with the text 'Choose Yes'. Below the main content area, there are three sections: 'Instructions', 'Activation / Other Info', and 'Installing ACL Direct Link'. The 'Instructions' section lists three steps: 1. Download the ACL for Windows installation package by clicking the link above. 2. Close all other Windows applications. 3. Double-click the installation package and follow the instructions. The 'Activation / Other Info' section explains that after installation, users need to activate it using their ACL user ID and password, and that the activation assigns one of their organization's subscription licenses to them. The 'Installing ACL Direct Link' section states that Direct Link requires ACL Analytics and the SAP GUI to be already installed and provides a link to 'Installing Direct Link'.

Run the Installer

The screenshot shows the ACL for Windows website interface. At the top, there are navigation icons and a search bar. The main content area is divided into sections for 'ACL for Windows' and 'ACL Direct Link'. The 'ACL for Windows' section includes a 'Download Version 13.0.1' button and a 'Patch available for ACL for Windows' section. A 'User Account Control' dialog box is overlaid on the page, asking for permission to allow the app to make changes to the device. The dialog box shows the publisher as 'ACL for Windows Self-Extracting Installer' and the file origin as 'Hard drive on this computer'. A red arrow points to the 'Yes' button with the text 'Choose Yes'. The bottom of the page features three columns of information: 'Instructions', 'Activation / Other Info', and 'Installing ACL Direct Link'.

ACL Edition Selection
Important: Make sure that the edition you install is the correct one for your organization.

Select the edition of ACL for Windows to install:

- Non-Unicode
- Unicode

< Back Next >

Instructions
To install:
1. Download the ACL for Windows installation package by clicking the link above.
2. Close all other Windows applications.
3. Double-click the installation package and follow the instructions.
For more information, see [ACL for Windows Installation and Activation Guide](#)

Activation / Other Info
After you have installed ACL for Windows, you need to activate it using your ACL user ID and password.
The activation assigns one of your organization's subscription licenses to you.

Installing ACL Direct Link
Direct Link requires that ACL Analytics and the SAP GUI are already installed on your computer.
For help with the installation, see [Installing Direct Link](#)

Install to the machine

The screenshot shows the ACL for Windows installation page. A red-bordered window titled "ACL for Windows Non-Unicode - Setup" is overlaid on the page. The window shows the "Destination Folder" section with the following settings:

- Install ACL for Windows to: C:\Program Files (x86)\ACL Software\ACL for Windows 13\
- Install Sample Data Files to: \\Mac\home\Documents\ACL Data\Sample Data Files\

Below these settings, a note states: "\\Mac\home\Documents\ACL Data\Sample Data Files\ will also be your default working directory." At the bottom of the window, there are "< Back" and "Next >" buttons. Two red arrows point to the "Next >" button and the "Change..." buttons, with the text "Leave the Defaults" and "Click 'Next'" respectively.

The background page features the following content:

- ACL for Windows**: Connect to any data, analyze any risk and visualize your results. Access the world's most trusted data-driven GRC tool by downloading and installing the latest version of ACL for Windows. The ACL for Windows installation package contains ACL Analytics, Analysis Apps, and Offline Projects. Download Version 13.0.1 (740 MB | 2017-12-20).
- Patch available for ACL for Windows**: This patch will update your version of ACL Analytics to security updates. Install this patch if your version of ACL is not 13.0.1. Download Patch (8.51 MB | 2017-12-20).
- Instructions**: To install:
 - Download the ACL for Windows installation package by clicking the link above.
 - Close all other Windows applications.
 - Double-click the installation package and follow the instructions.For more information, see [ACL for Windows Installation and Activation Guide](#).
- Activation / Other Info**: After you have installed ACL for Windows, you need to activate it using your ACL user ID and password. The activation assigns one of your organization's subscription licenses to you.
- Installing ACL Direct Link**: Direct Link requires that ACL Analytics and the SAP GUI are already installed on your computer. For help with the installation, see [Installing Direct Link](#).

Install to the machine

The screenshot shows the ACL for Windows installation page. The page is divided into several sections: 'ACL for Windows', 'Patch available for ACL for Windows', 'Instructions', 'Activation / Other Info', and 'Installing ACL Direct Link'. A red box highlights the 'Ready to Install the Program' window, which is a wizard for installing 'ACL for Windows Non-Unicode - Setup'. The window contains the following text: 'Ready to Install the Program', 'The wizard is ready to begin installation.', 'Click Install to begin the installation.', and 'If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.' A red arrow points to the 'Install' button with the text 'Click "Next"'. The background page shows a 'Download Version 13.0.1' button (740 MB | 2017-12-20) and a 'Download Patch' button (8.51 MB | 2017-12-20). The 'Instructions' section lists three steps: 1. Download the ACL for Windows installation package by clicking the link above. 2. Close all other Windows applications. 3. Double-click the installation package and follow the instructions. The 'Activation / Other Info' section states that after installation, users need to activate it using their ACL user ID and password, and that activation assigns one of the organization's subscription licenses to them. The 'Installing ACL Direct Link' section notes that Direct Link requires ACL Analytics and the SAP GUI to be already installed and provides a link for help.

Main Screen- Download & Training Links

The screenshot shows the ACL Help Docs main screen. At the top, there is a navigation bar with the ACL logo and links for Peer Community, Tools & Templates, Training, Help Docs, and Support. Below the navigation bar is a banner for the Fall 2017 Release. The main content area is titled "Help Docs" and features several product sections:

- ACL GRC**: Includes buttons for Project, Results, Reports, Launchpad, and Release Notes.
- ACL Analytics**: Highlighted with a red box and a red arrow pointing to the "View Docs" button. It includes a dropdown menu for Version 13 (Current) and links for Release Notes and Installation Instructions.
- Scripting Guide**: Includes a dropdown menu for Version 13 (Current) and a "View Docs" button, with links for Scripting Basics and Language Reference.
- Analytics Exchange**: Includes a dropdown menu for Version 13 (Current) and a "View Docs" button, with links for Server Installation, Server Administration, Technical Brief, AX Exception, and Release Notes.
- Direct Link**: Includes a dropdown menu for Version 8 (Current) and a "View Docs" button, with links for Release Notes and Installation.
- Other Products**: Includes links for Add-In for Excel and ACL Essentials.

At the bottom, there is a "Didn't find what you were looking for?" section with a "Contact Support" button.

ACL Labs

- ACL Labs will be based on the ACL On-Line Training available from the ACL Training Link.
- Other Labs and assignments will require you to present the results of your work.
- Go to Canvas and Lab 01 Assignment

Thank you.
