Key Issues

Description	Status	Resolution/Update	Ow
Proposal feedback	Y	Waiting to hear feedback from Professor on our new proposal for app Bone Voyage. Will apply feedback appropriately and will plan accordingly.	Group
Features may need to be edited	Y	Features aren't set in stone (may not have enough time to implement all planned features), but if any edits need to be made, they will be discovered and documented in the forthcoming prototyping phase	Group
Research competitors	Y	The team must dedicate time to research and design app. We have to extend time for research. Basic design of app has a deadline of Feb 13.	Group
Generate fixed/variable costs	Y	The team must generate an estimated cost for developing the application and figuring out other fixed and variable costs	Group

Planned Accomplishments

Next weekly meeting, we will continue to discuss application features. During the meeting, we will apply feedback received from Professor Hohne about our busines
project charter. We will continue to discuss competitors and try to differentiate our application; we will also try to generate fixed and variable costs over time. We will
2nd draft of the Project Charter and Business Model of our application and complete our 3rd status report.

2nd draft of the Project Charter and Business Model of our application and complete our 3rd status report.
