Flash Research Assignment 3

December 5, 2017

SharePoint

Our company will have a benefit of \$2.1 million over three years by implementing SharePoint. SharePoint is a collaborative platform that empowers users to create, share and customize teamwork inside and outside of the organization across multiple devices. By investing in SharePoint, our company will have a 3-years net benefit of roughly \$1.85 million.

SharePoint is a document management and storage system that enables organizations with many employees and clients to communicate and stay up to date with changes. For example, users can share resources or news with the team, searching and retrieving records, alter files, and work together securely with this platform. In addition, SharePoint can be customized to fit everyone's needs. The benefit of this platform will be a reduction of backload work and we are able to increase 400 billable hours per year for each PMP because of the increase in productivity by our PMPs using SharePoint. Additionally, we will eliminate the hassle of mishandling documents and build a more productive team that will create value for our clients.

It will cost us \$253,750 over three years to implement this project, which includes the initial purchase, maintenance, and administrative costs. Our 3-years benefit will be \$2.1 million, resulting from the sum product of the extra 400 billable hours per year for our 10 PMPs at \$175 per hour rate. Our 3-years net benefit will be roughly \$1.85 million along with the increased productivity of our team.

Figures

Current Revenue						
PMPs	Billable hours/year	Avg. rate per hour	Year 1	Year 2	Year 3	Total
10	1500	\$175	\$2,625,000	\$2,625,000	\$2,625,000	\$7,875,000
Investment Benefit						
10	1900	\$175	\$3,325,000	\$3,325,000	\$3,325,000	\$9,975,000
Benefit	400	\$175	\$700,000	\$700,000	\$700,000	\$2,100,000
Investment Costs						
	Year 1	Year 2	Year 3	Total		
Initial Purchase	\$100,000	\$0	\$0	\$100,000		
Maintenance 18%	\$18,000	\$18,000	\$18,000	\$54,000		
Administering 10% of 1900 billable hours	\$33,250	\$33,250	\$33,250	\$99,750		
			3-Years Cost	\$253,750		
			3-Years Net Benefit	\$1,846,250
