### MIS 2501 Flash Research Paper #3: SharePoint

We have the opportunity to raise revenue to \$3.3 million a year in billable hours out of our PMPs by implementing Microsoft SharePoint. SharePoint allows us to consolidate our many project documents into one manageable online access point. Through SharePoint, we can create an organized work environment and begin maximizing the hours spent with clients per year to see an overall increase in revenue.

SharePoint acts a hub for all of our PMPs to view and edit documents on a real-time basis without the need to sort through e-mail traffic with attached documents. Implementing Microsoft SharePoint will quickly organize all of our various project documents that are across multiple computers and put them into an accessible and highly secured website for our PMPs to share access with each other and our clients. Through SharePoint, our PMPs can share documents with each other and our clients on a more efficient level. Likewise, this will lead to a dramatic increase in productivity from our PMPs as they will be able to quickly and easily access the proper documents needed to satisfy our clients in a timely manner.

There will be total three year cost of \$154,000 for implementation and maintenance. The implementation of SharePoint will realize an increase of billable hours, so we can expect them to raise revenue by \$2 million over three years. Therefore, we will see a \$1.8 million 3-year net benefit by implementing SharePoint into our company.

<b>Possible Billable Hours + Old System</b>				
		Hourly Rate	Total Per PMP	Total PMP
Hours on Clock P/Year	2000	\$175.00	350000	3500000
Billable Hours P/Year (Old System)	1500	\$175.00	262500	<b>2625000</b>

<b>With SharePoint</b>				
Billable Hours P/Year (SharePoint)	1900	\$175.00	332500	2992500
SharePoint Expert	1710	\$175.00	299250	299250
			<b>Total Revenue Per Year</b>	<b>3291750</b>

<b>3-Year Plan</b>				
	Year 1	Year 2	Year 3	Total
Additional Billable Hours	666750	666750	666750	2000250
Implementation Cost	118000	18000	18000	154000
			<b>3-Year Net Benefit</b>	<b>1846250</b>
