January 2023 – Present

## TECHNICAL SKILLS

Analysis:

Python

Software Development:

Amazon Web Services

Web Development:

HTML, JavaScript, CSS

Database Management:

SQL, MongoDB

Project Management:

Microsoft Office

## PROJECTS

*SupeAble Client, Web Service Programming*

January 2023 – March 2023

- *SupeAble Client* is an Event Management Solution (EMS) that focuses on attendance tracking. The purpose of attendance tracking is to determine the number of attendees that were present at a meeting. Also, event managers can see the attendance meeting history, individual attendee attendance history, and to have assurance that those persons reporting attendance were present.

## EXPERIENCE

FRANKFORD LEATHER COMPANY, Bensalem, PA

December 2021 – January 2023

*Assistant Project Coordinator*

- Formatted a variety of images in different dimensions to transition from the current website to a new CRM system.
- Created several banners to inform customers about discounts or newly available products on the current website.
- Helped on the introduction of new software and hardware into the Frankford Leather local network.
