PROJECTS

Data Visualization Competition, AIS Leadership Conference January 2024 – March 2024

- Employed DOMO to create interactive dashboard highlighting criteria strengths and weaknesses through visual analytics
- Compiled 7 sources based on data accuracy, consistency, uniqueness, and timeliness to provide relevant statistics
- Conveyed data models to DOMO developers alongside 3 team members and awarded 1st place nationally out of 7 finalist teams

Distribution Strategy Consulting Service, Temple Consulting Club September 2023 – December 2023

- Fostered strategic relationships with 3 local partners to optimize distribution channels for client
- Conducted market research and performed competitive analysis by utilizing consumer and industry insights
- Contributed to a 6-member, cross-functional project team to address business requirements
- Created comprehensive reports to client conveying analysis outcomes that featured tailored results

EXPERIENCE

ACCENTURE, Philadelphia, PA

Consulting Applied Intelligence Summer Analyst

June 2024 – August 2024

- Collaborated with 7 full-stack engineers and 3 data scientists in creating an AI-integrated dashboard for global biopharmaceutical client
- Developed frontend using JavaScript, Typescript, Redux, and React, while monitoring backend and database using Python and PostgreSQL for data entries ranging from 8 thousand to 2.1 million
- Discussed GenAI use cases, functionalities, and integration with client to train both machine learning and large language models
- Conducted onboarding for new-joiner engineers by creating documentation on software configurations, environment access, and repository management within AWS CodeCommit
