Elizabet Uritsky

Objective

I am seeking entry opportunities into banking, cybersecurity, and data science to build trustworthy professional relationships with colleagues, provide meaningful effort and contributions, and cultivate my academic skillset with hands on experience within given industry or workspace.

Education

Temple University, Bachelor of Science   **August 2023- Present**
> College of Science and Technology: Information Science and Technology

Work Experience

Alessio's Seafood Grill   **August 2021- June 2022**
- Coordinated and communicated with hosts and service staff to ensure smooth front of house operations, minimizing potential service delays.
- Established menu knowledge and built rapport with customers to achieve average order sizes 10% over target.
- Completed daily opening and closing duties according to establish service standards.
- Delivered prompt, accurate service while assisting other servers as needed.

Michaels Arts and Crafts, Cashier   **July 2022- December 2023**
- Attended to phone calls and assisted in-store customers inquiries.
- Delivered friendly, courteous, and professional customer service experiences.
- Mastered the Point-of-Sale (POS) system to efficiently process transactions, refunds, and exchanges as well as enrollment in rewards/loyalty programs.

Achievements

Meals for Music   **January 2021**
- With a group of 3 musicians, I created and advertised a local contest for musicians to submit a piece of music. Independent judges selected a winner, with the fundraiser raising $1,127.85 which was donated to Bucks County Opportunity Council (BCOC).

Skills

In my academic and professional career thus far, I have gained experience programming in Python. I have used internal libraries to create innovative and engaging projects. Other skills include strong communication and interpersonal skills.
