Managing Enterprise Cybersecurity
🔒 ←

1000

Professional Achievement Requirement

Professional achievement includes relevant industry experiences, career knowledge, leadership, communication skills, ability to work in a team, and readiness for the workplace. A high level of professional achievement shows that a graduate can apply learning to practice and is ready to achieve success in the workplace. Professional achievement is measured by professional achievement (PRO) points:

- Each student is required to earn a minimum number of PRO points to avoid receiving an incomplete in MIS courses. See 🔒 lock icon on front page.
- Each student is required to earn at least 1,000 PRO points prior to graduation.
- To learn how to earn PRO points, see:

http://community.mis.temple.edu/PRO

Academic Achievement Requirements

MIS is a very challenging major. A grade of a C or better is required for all courses.

If your GPA is near a C, you will be asked to meet with an advisor to assess academic progress and suitability for the major.

Professional and Academic Achievement Resources

MIS offers top students opportunities to gain recognition, awards, scholarships, engage with industry, and get placed including:
- MIS scholarships
- Annual MIS professional and academic achievement awards
- E-portfolio, professional achievement badge, and leaderboard
- Fox IT career fair
- Mentorship and industry engagement through the Institute for Business and Information Technology (IBIT)
- Association for Information Systems student organization

To learn more, go to http://community.mis.temple.edu and browse the *Current Students* menu.
