EXPERIENCE

Air Liquide, Newark DE   June 2024 – April 2025

HSE Intern

- Managed and trained staff on the chemical inventory system, improving data consistency and proper usage across departments.
- Created dynamic pivot tables and visual dashboards for managers to track employee training status and key performance indicators (KPIs).
- Automated training compliance tracking using Google Sheets scripts and SQL functions, significantly reducing manual effort and enhancing data accuracy.
- Led quarterly and annual HSE reporting efforts, consolidating data into clear, executive-ready formats.
- Oversaw all gas deliveries, tracking consumption rates and maintaining an accurate rolling yearly usage total.
- Collaborated with the data science team to digitize legacy gas delivery records from paper logs into Google Sheets, enabling the development of custom interpolation scripts that automated usage tracking; replaced a manual, binder-based process with a seamless digital workflow for calculating exact SCF delivered.
- Conducted internal inspections and audits; managed document compliance within the AODocs system, ensuring all records were current for equipment and experiments.
