EXPERIENCE

The Greater Sum Foundation, Lead Global Digital Projects

Aug 2021 – Dec 2021

Product Planner,

- Redesigned client's current website to make it more user friendly and easy to navigate. The Greater Sum foundation supports early-stage nonprofit sector by providing funding, networking, and subject matter expertise.
- Planned out the product roadmap to make sure that every piece of the product is delivered on time.
- Kept the client updated and revised the product according to the client's requirements.

Pennsylvania Turnpike Toll Calculator, Cloud Architecture

Jan 2022 – May 2022

Developer,

- Developed an application that calculates the toll costs, time, and distance between the interchanges.
- The application contains a web server and application server. The web server contains the turnpike's information for users to input, and then the data will be passed to the application server. The application server is programmed to retrieve data from a MySQL database. Lastly, the data retrieved from the database will be sent to the web server and invoke an API that can calculate the time and distance between the interchanges.
- The application can increase and decrease its volume based on demand.
