Install a copy of the software, information on site can be found on the web site under the section JustinMind Software

You will find a copy of the software key in your Grade book entry

- Create a new prototype

- Select a device template

- One page containing your name (use the label object) and a picture (image object)
- Drag and drop the label objects from the library on to the screen, double click in the label box and type your name.

- Drag and drop the image objects from the library on to the screen, right click in the image object select and image from your own picture library.

- You may be creative as you would like, the lab is just an introduction to the software tool.

- Run the simulate feature.
- Take a screen shot
- Print a copy of the page and turn in for next class
