

MIS 3506

Digital Design and Innovation Studio

5: UNDERSTANDING WORK
PROCESSES

Amy Lavin / Steve Sclarow

Photo: Installation by Jenny Holzer, US Pavillion, Venice Biennale 1990

Schedule

Interview #2: 9/26 – 2-3:20 / A603

Team Scope: **Amy: 9/27** **Steve: 9/28**

Exam 1: Amy: 10/2 Steve: 10/3

Exam #1

Chapters 1-4 and
Chapter 6 up to page 228.
No Process Diagramming

Process **DIAGRAMMING**

Understanding **HOW**
people do their work

Think VISUALLY

assembly process: **IKEA**

Workflow Diagrams

- How would you describe a process you routinely use to a friend who wanted to do the same thing?
- Is it easier to use words or draw a picture of the steps you take?
- What would some uses of this approach be?

Workflow Diagrams

- One of a Business Analyst's key tools, especially for analyzing the as-is situation
- Great way to begin to understand process you are dealing with at high level
- Different levels of workflow can be used to explain the process to different audiences
- Can document Standard Operating Procedures (SOP's)
- Revising the flow to facilitate improvements is standard design technique

Workflow Diagrams

- What would we want to include in a workflow diagram?
- There are many different types of workflow diagrams, we will focus on one.
 - **Swim Lane Flowcharting**
 - ANSI Flowcharting
 - UML Activity Diagrams
 - SIPOC
 - Etc.

Think:

Actors

[who]

Actions

[what]

Decisions

Sequence

[when]

Space

[where]

RELATIONSHIPS

Swim Lane Process Mapping

1. Name the process - subject+verb+object
1. What's the business event that initiates the process?
1. What's the outcome of the process?

Swim Lane Process Mapping

1. Name the process - subject+verb+object

Warehouse Receives Materials

1. What's the business event that initiates the process?

Receive Materials

1. What's the outcome of the process?

Materials are Stored

Swim Lane Workflow Exercise

- With your teammates,
- Take 5 minutes to imagine the steps a warehouse goes through when it receives material from its suppliers
- Sketch it out if you can
- Be ready to share your ideas

Swim Lane Process Mapping

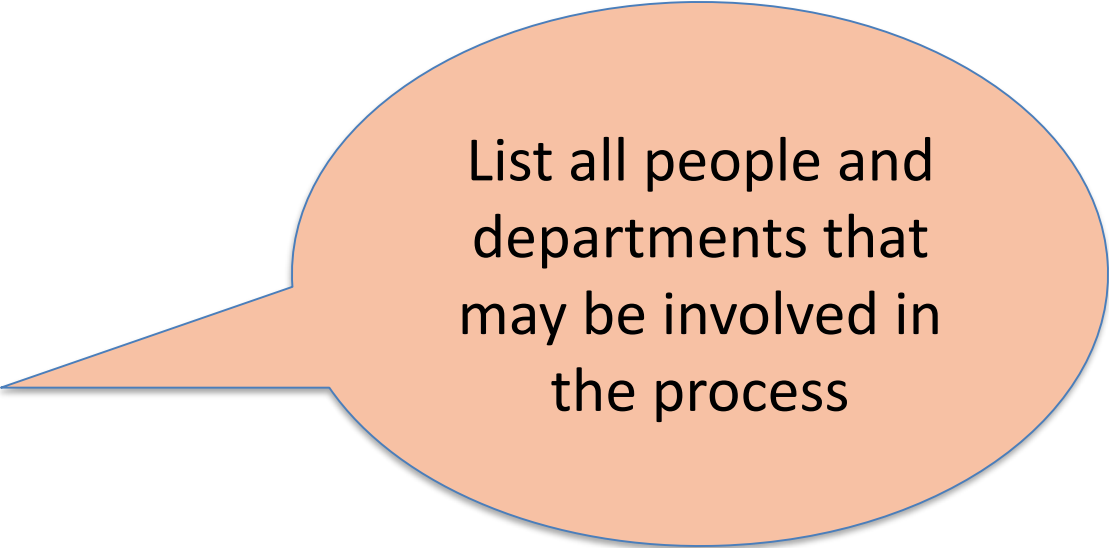

Receiving
Dock

Receiving
Clerk

Forklift
Driver

Warehouse
Foreman

Data
Processing

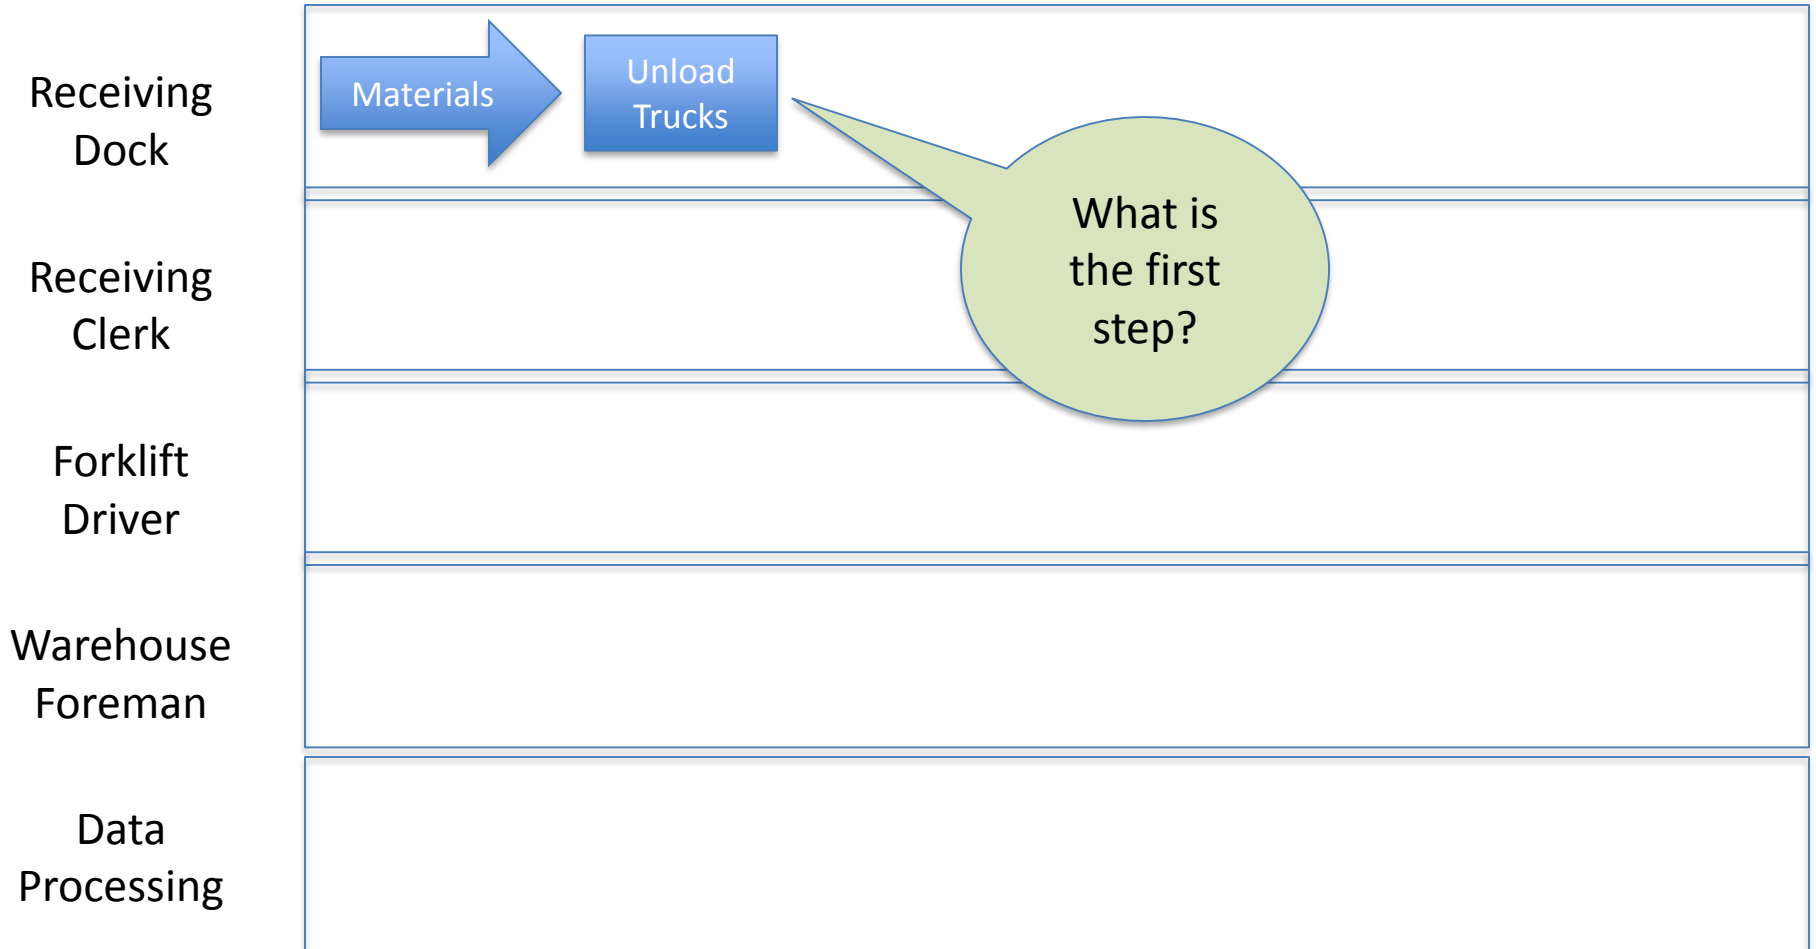

List all people and
departments that
may be involved in
the process

Swim Lane Process Mapping

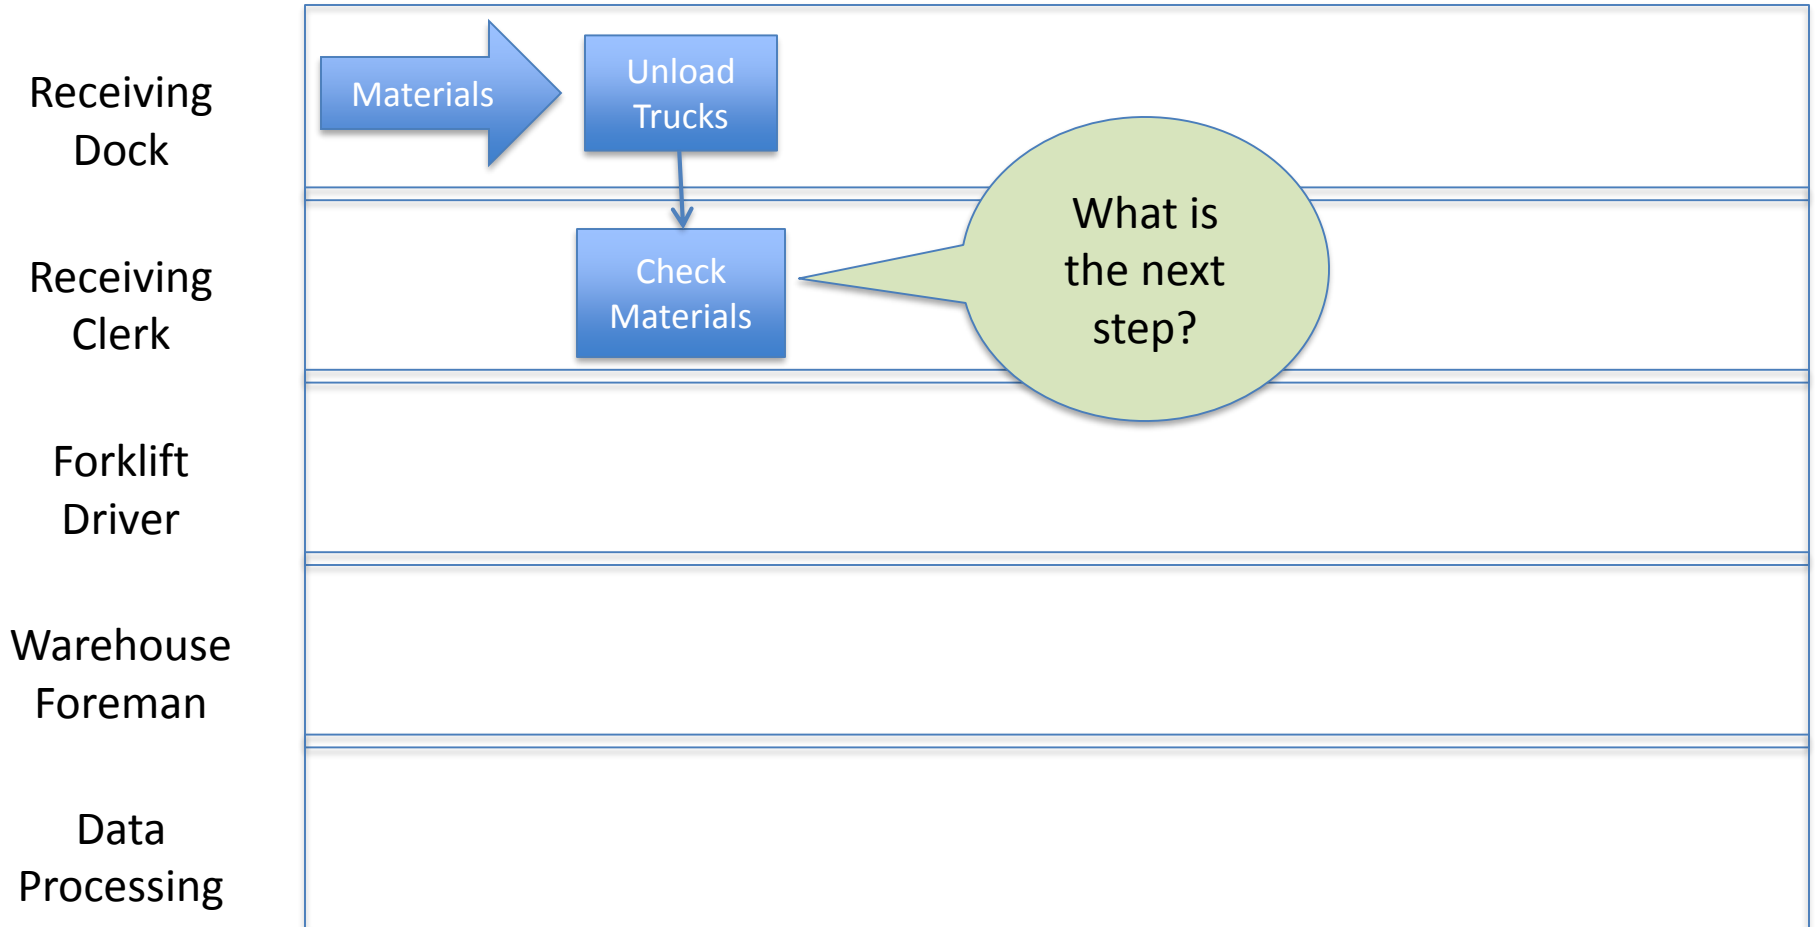

Draw a lane next to each person

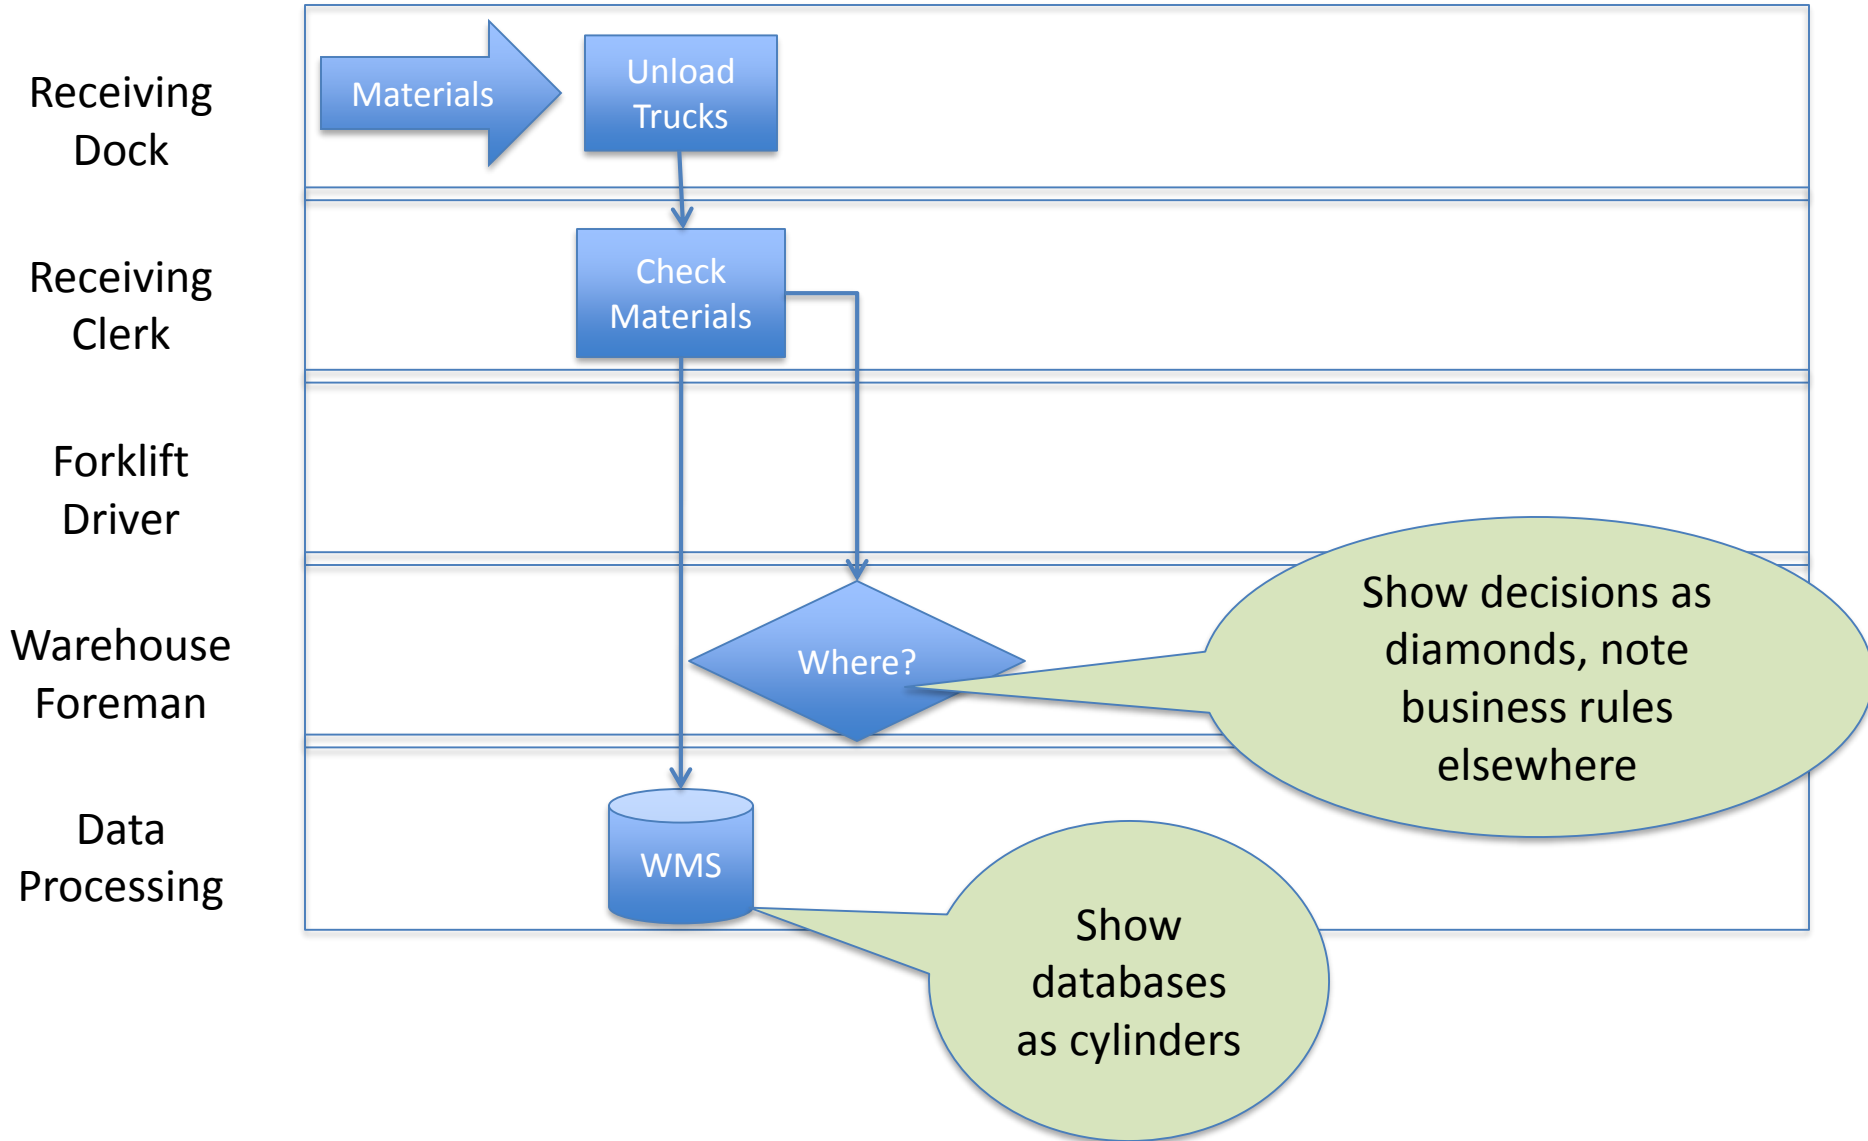

Swim Lane Process Mapping

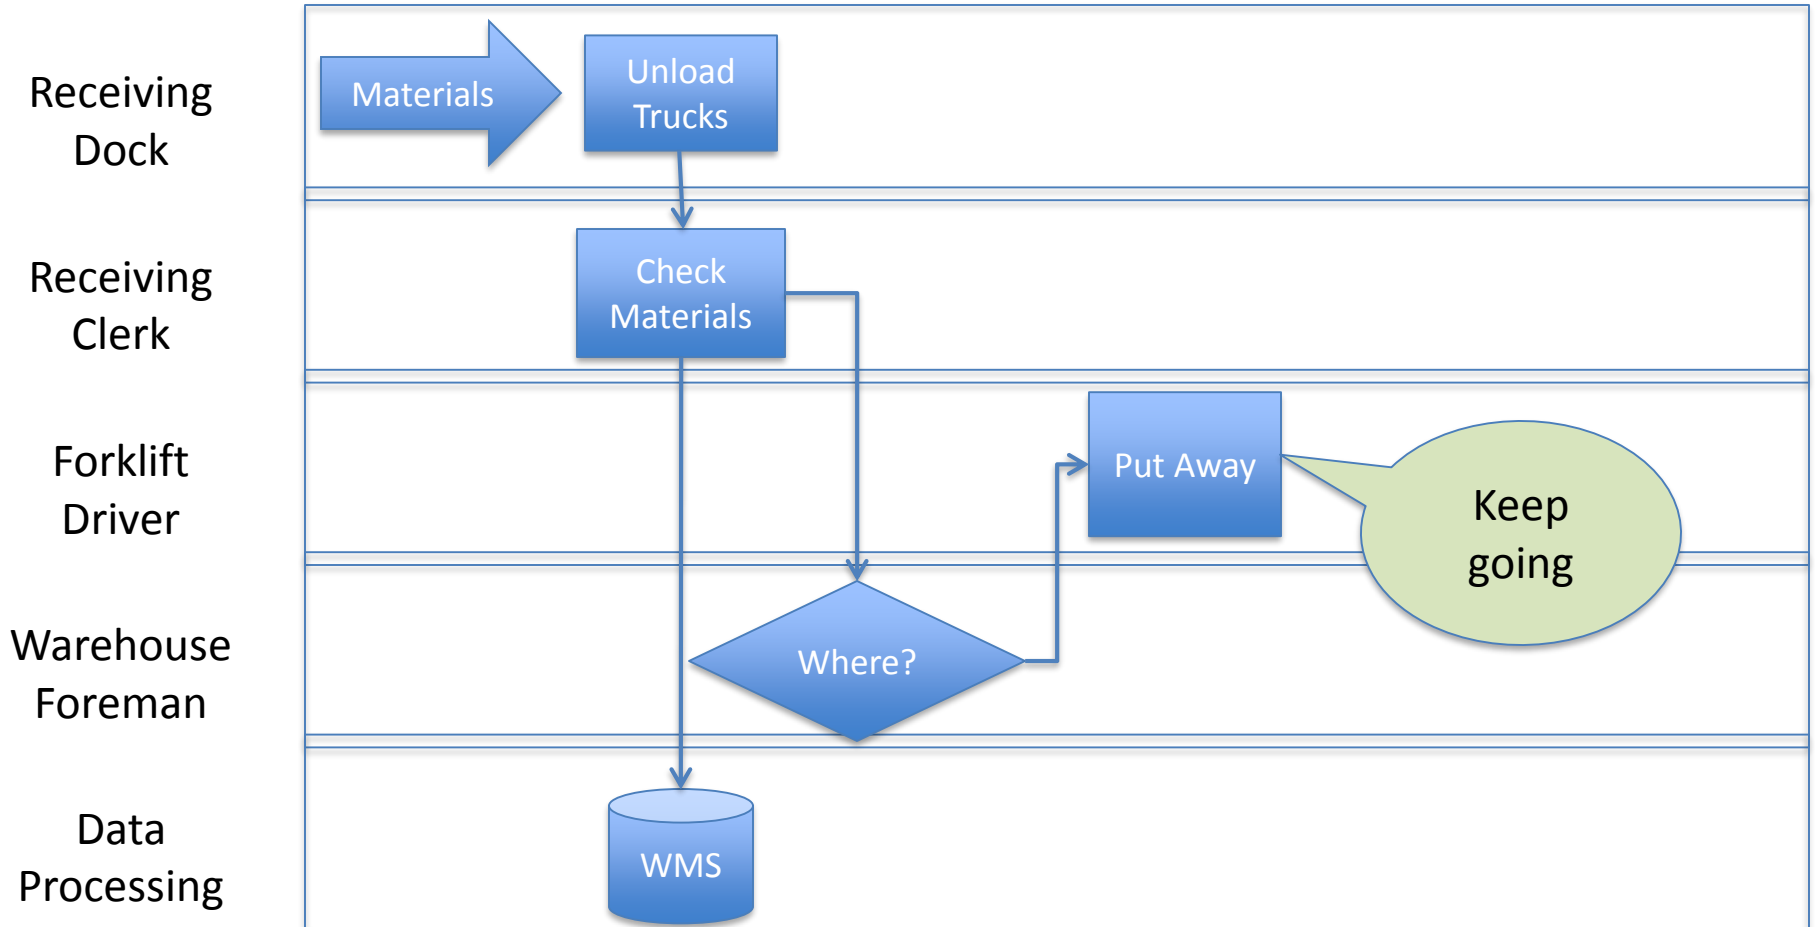

Swim Lane Process Mapping

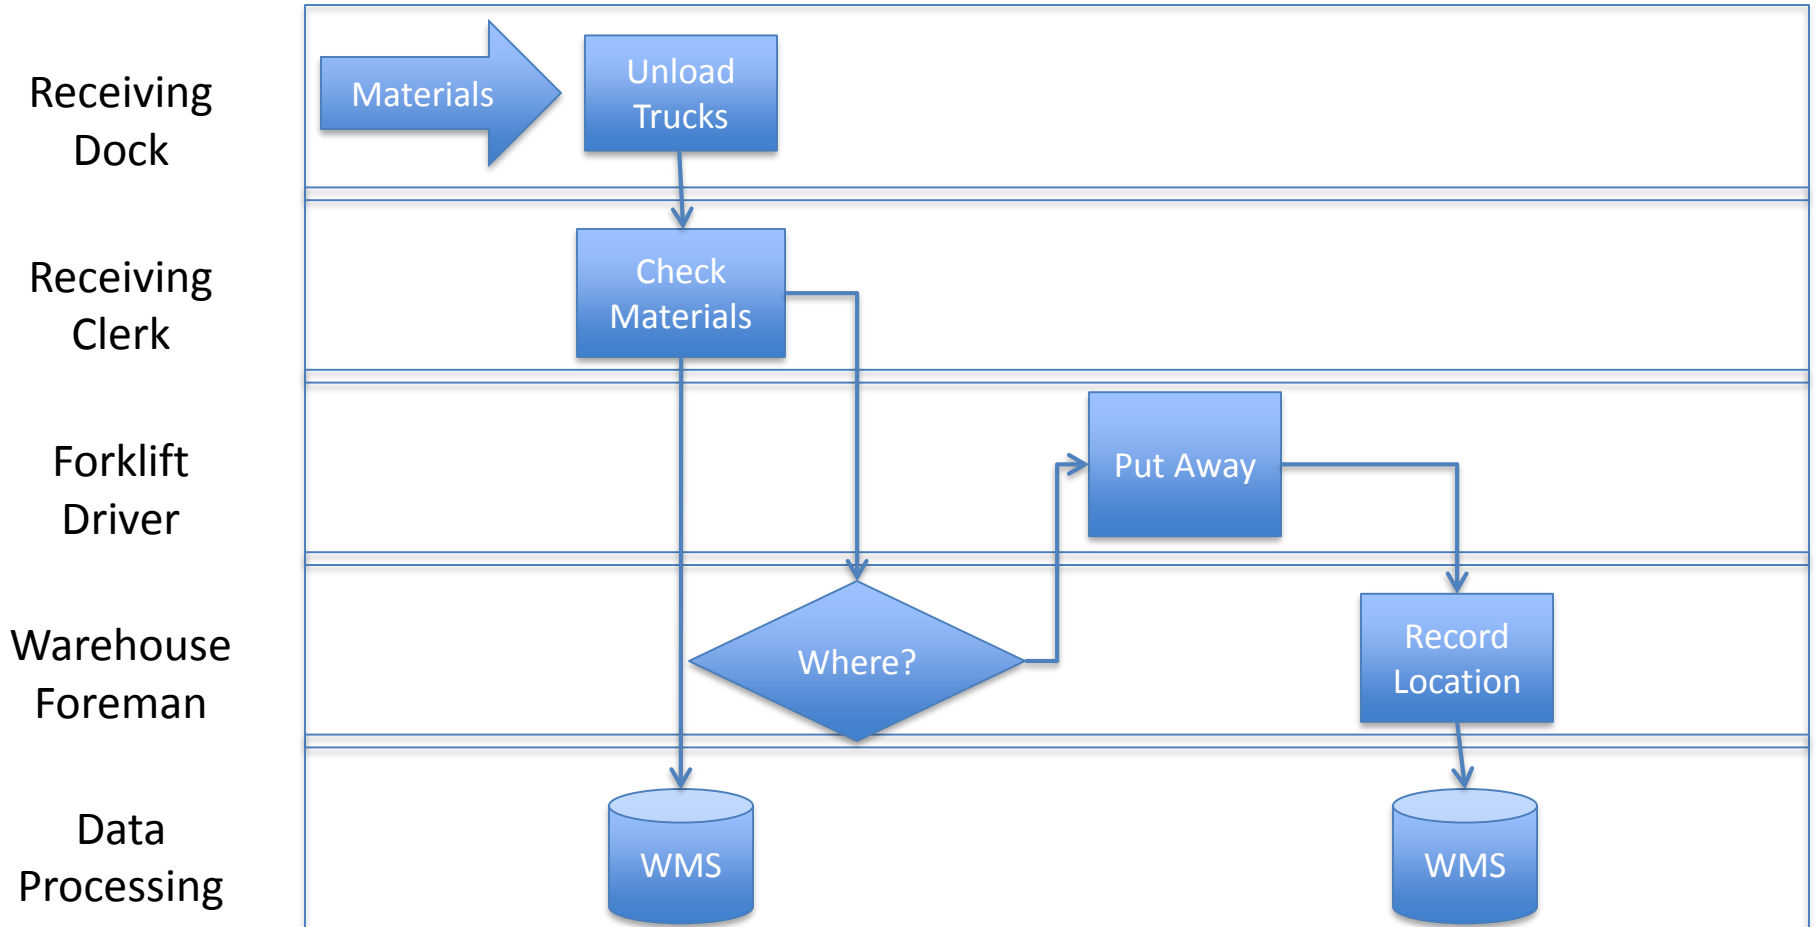

Swim Lane Process Mapping

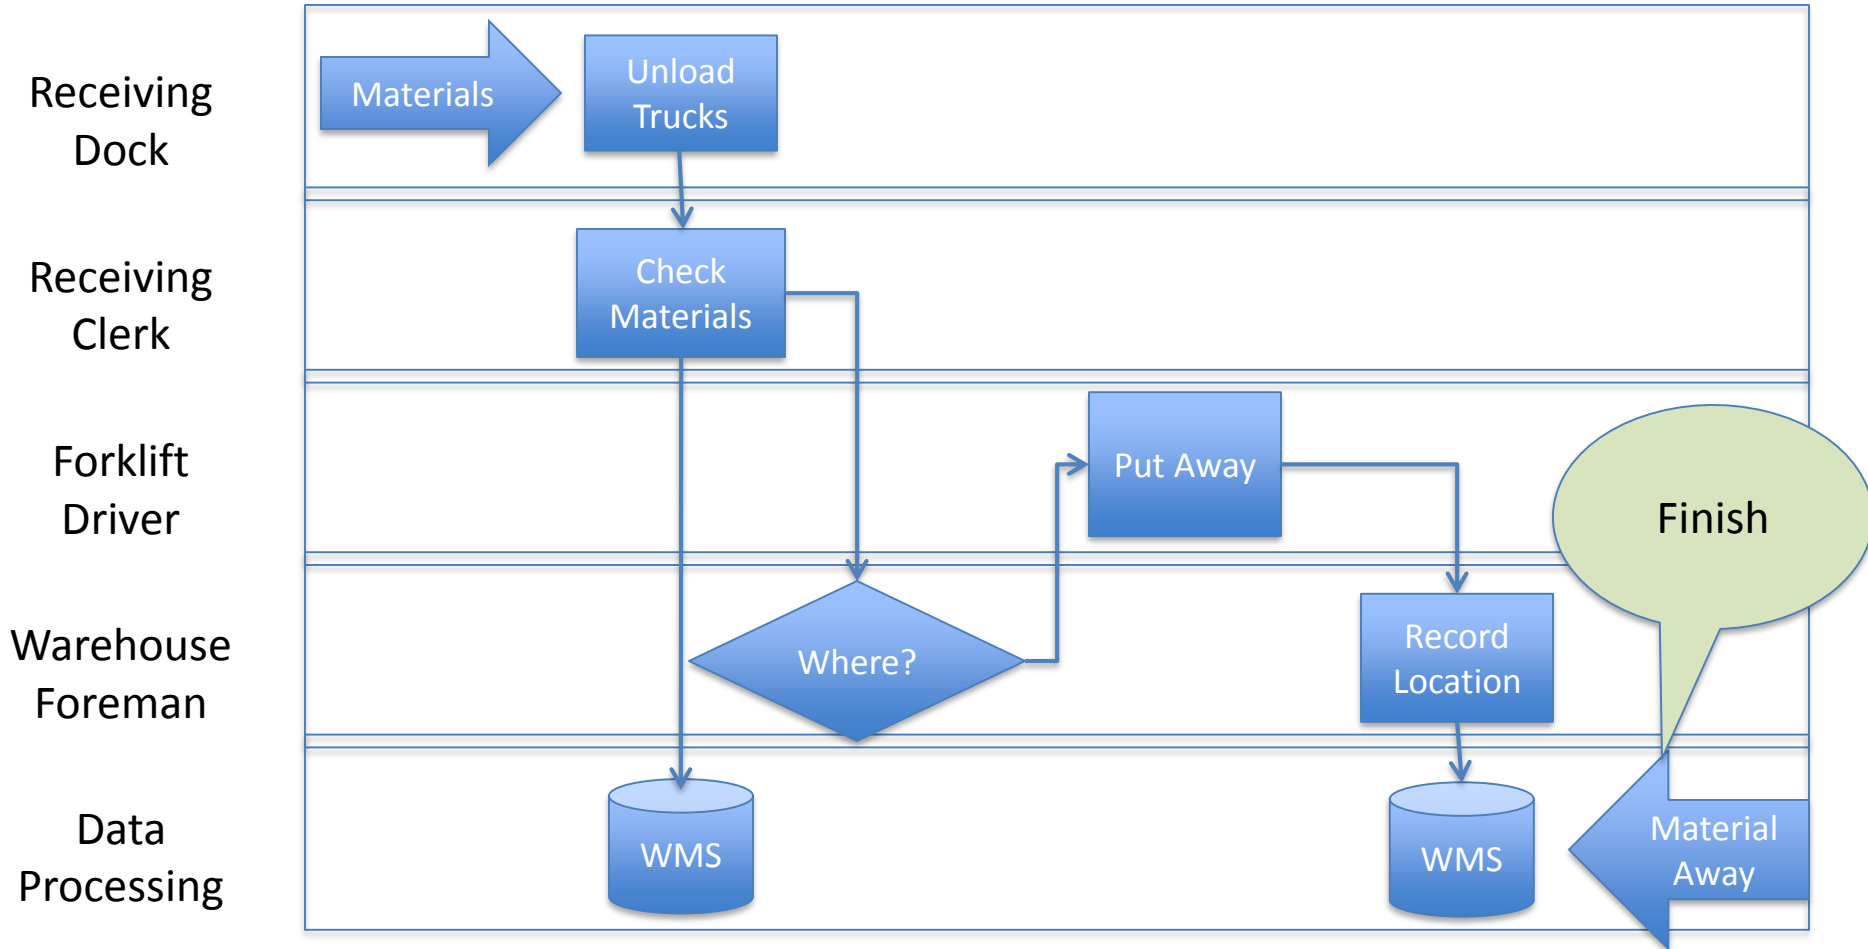

Swim Lane Process Mapping

Swim Lane Process Mapping

Swim Lane Process Mapping

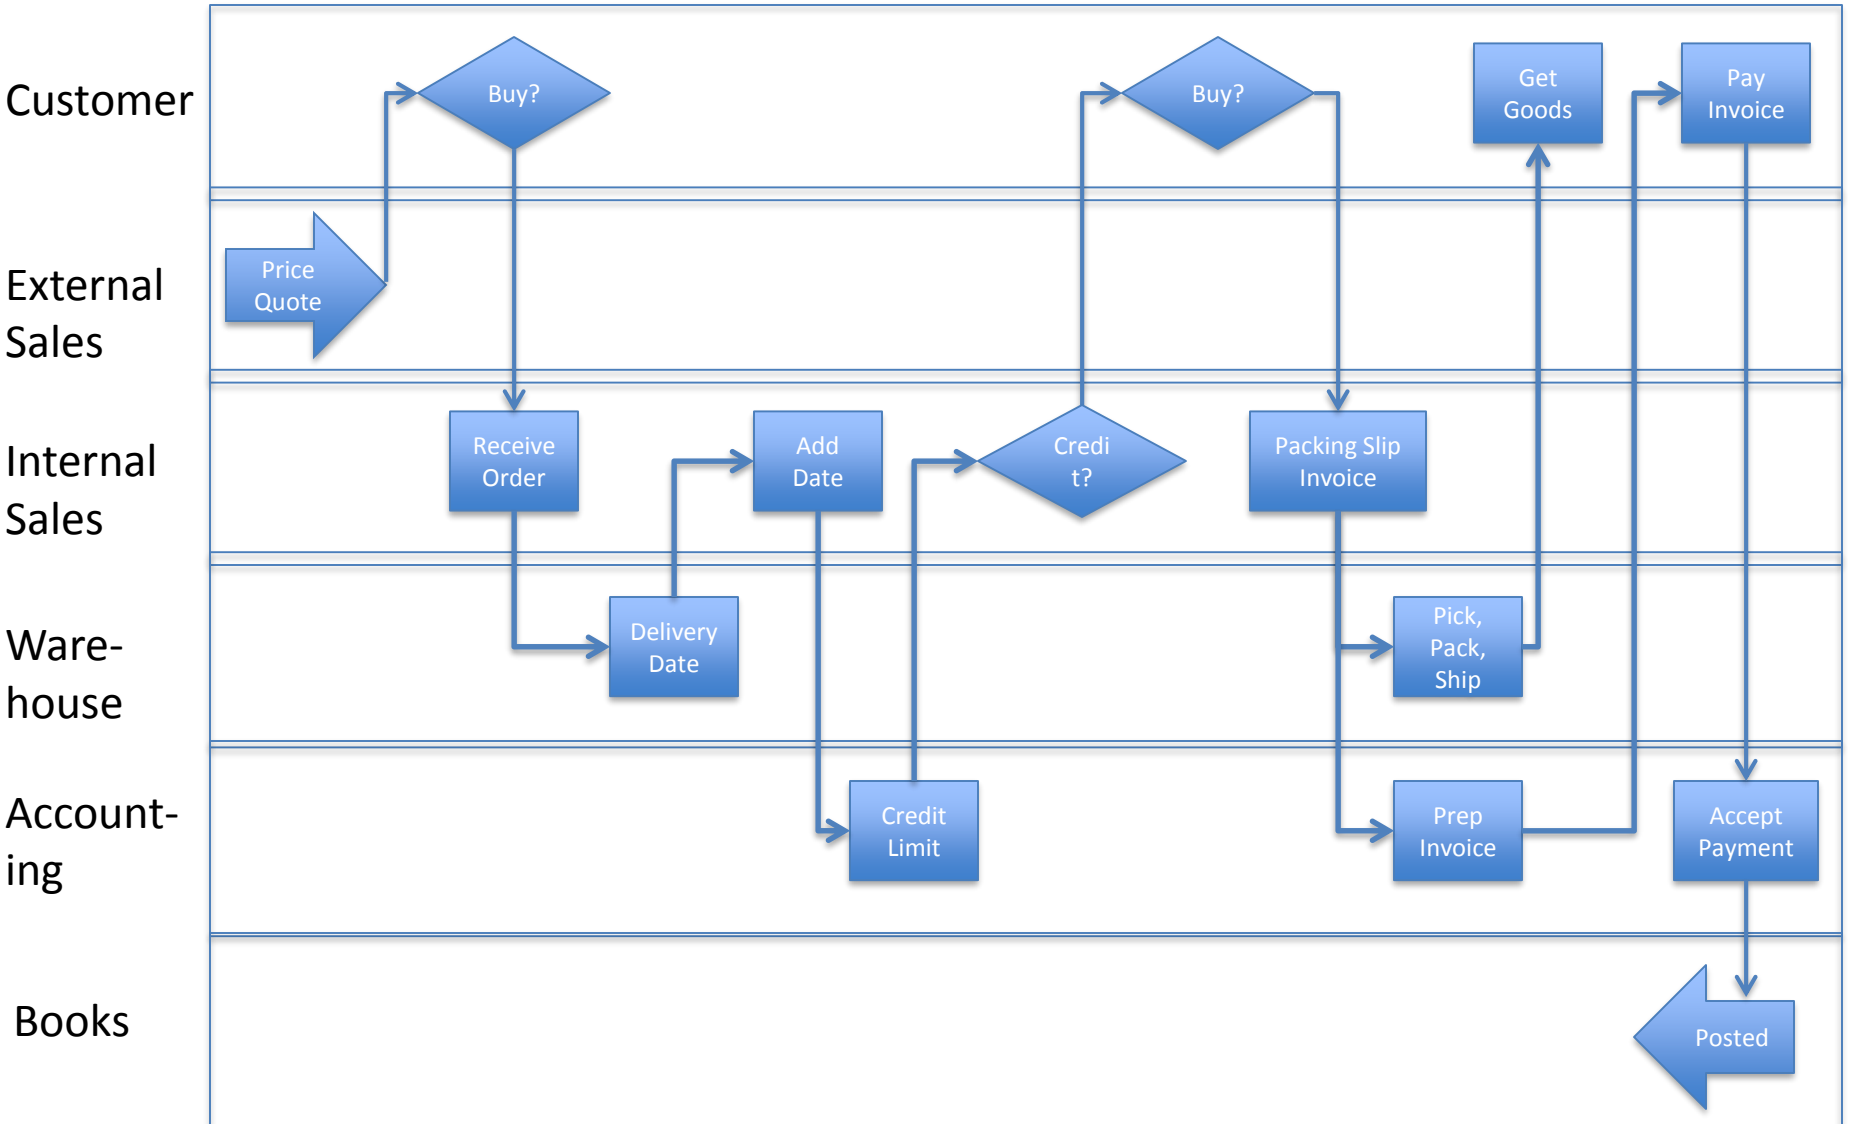

Exercise: Work as a team to draw the sales process described in the sales order case

- Actors – Who are all of the people/departments involved?
- Actions – What are the steps they perform in the process?
- Sequence – Map the process in sequence using the swim lane method.

Case
Review:

1. How did it go?
2. What confused you?
3. What does your diagram look like?

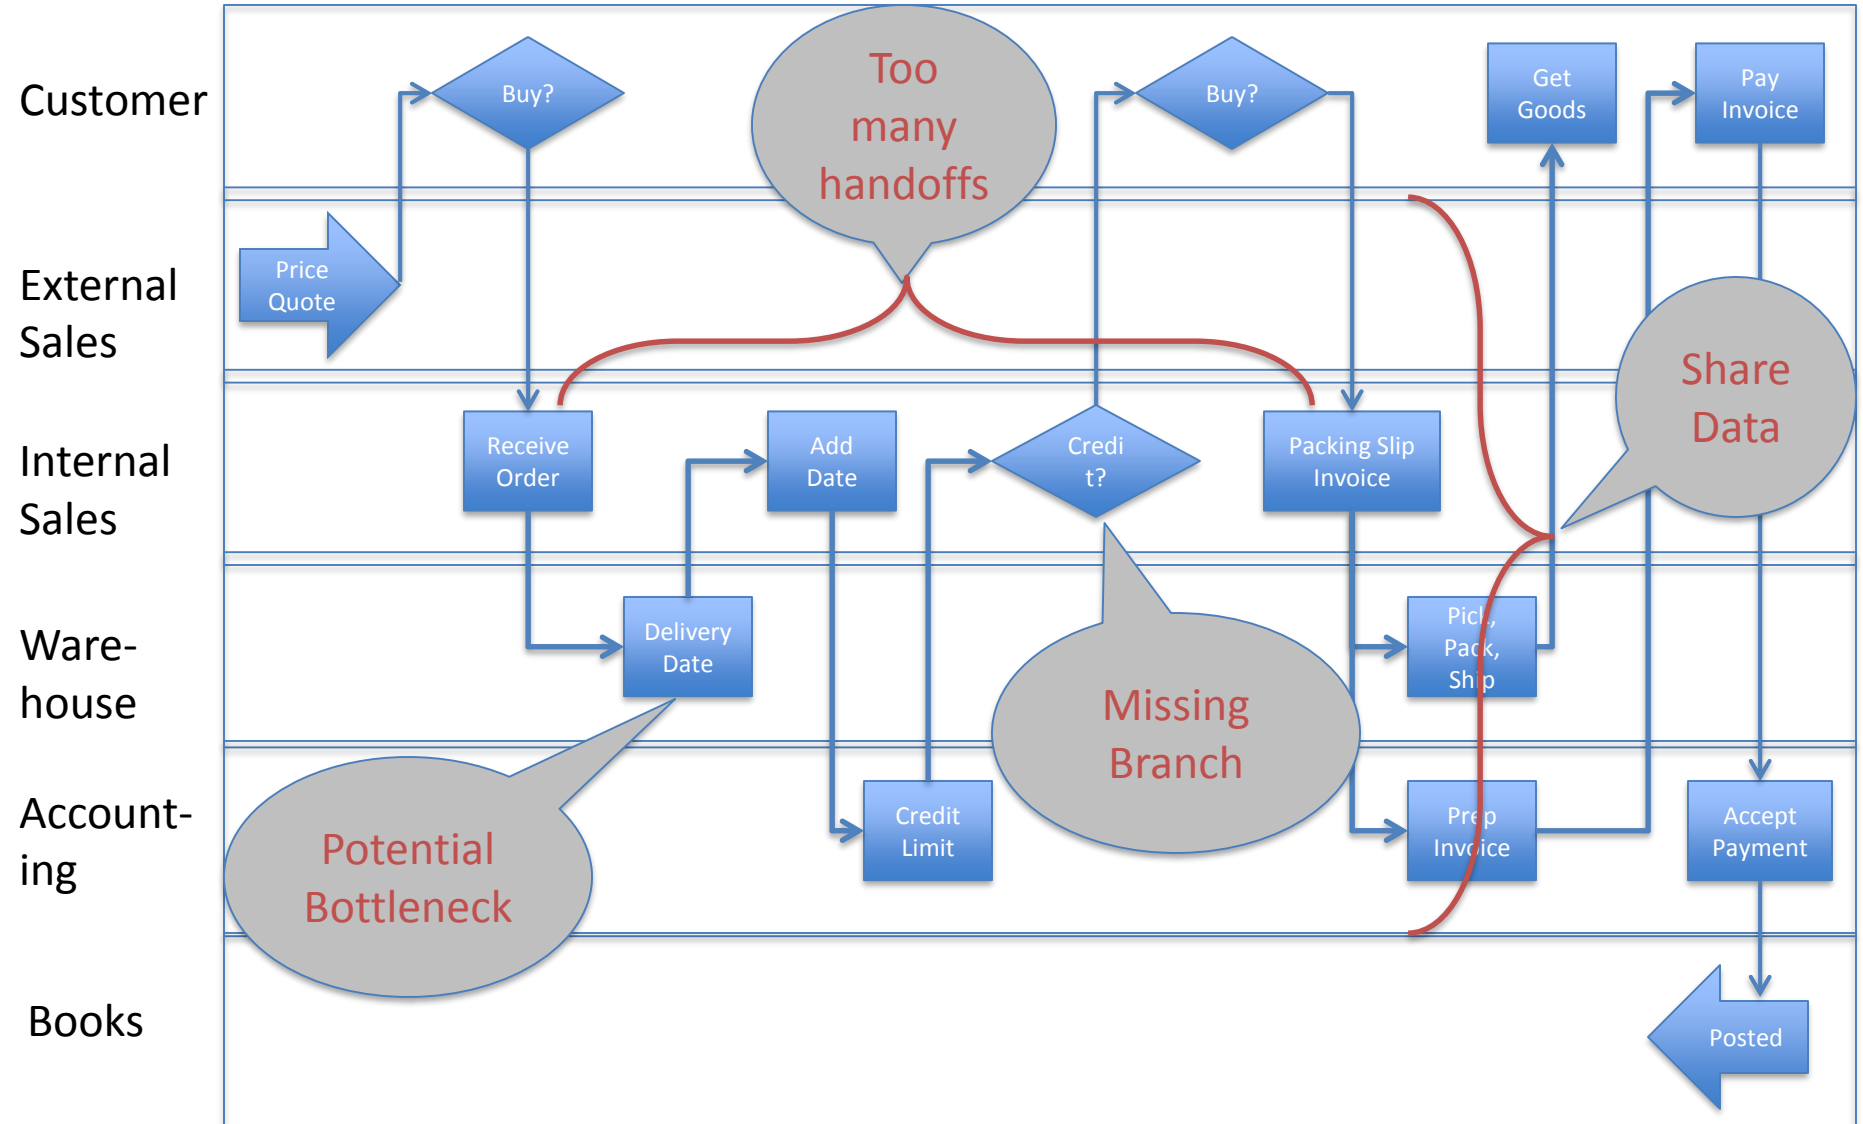

Sales Order Swim Lane

Case Review:

1. How did it go?
2. What confused you?
3. What does your diagram look like?
4. What follow-up questions do you have?
5. What problems or opportunities should you be looking for?

Sales Order Swim Lane

Swim Lane Evaluation

1. How well does the work product highlight the client's problem?
2. How completely does it cover the client's situation?
3. Does it accurately reflect what the client is doing?
4. Is it an appropriate tool for the client's situation?

Extra Credit 1: Due Thurs 02/23

Using the case as a starting point, create a prototype in Justinmind of an online sales order form. Include check-out in the process. Make sure to include all of the DATA needed to complete the transaction.

A sample is available on our MIS class course page
