

“Words simply can’t express the level of appreciation and gratitude we feel for the Caledonia Builders Inc. team’s passion and dedication as they completed our 50 units new Memory Care facility in Warrington, PA.

Their respectful and intentional concern to understand more about our needs and the team’s approach, care and compassion in their work translated to an amazing result that will have a lasting legacy that will impact generations to come.

We look forward to our continuing partnership with Dan Achek & Caledonia Builders Inc. in another project in the very near future”.

**Arvind Bhakta, president of
Bristol House (a Memory Care project)
Warrington, PA**

I have known Dan Achek of Caledonia Builders Inc. for over 30 years. I have contracted him to work on several building construction and development projects. My relationship with Dan is one that I value and trust as a real estate investor. Dan has always given me excellent advice and every job we have worked on together has always been done in a timely manner and always reasonable. You don’t find people like Dan Acheck today who do what they say and stand behind their work. I would never consider buying flip or building new constructions without running it by Dan and using Caledonia Builder’s Inc. for all of my projects.

Charles J Giunta Jr. President

C Giunta Enterprises LLC

I have known and contracted Dan Achek of Caledonia Builders Inc. for building construction and development projects, for over 15 years. Our business relationship can be characterized as productive and reasonable, dealing with and resolving matters that arise with mutually acceptable conclusions. In my opinion our business relationship has been formed with integrity and satisfaction. I will consider Caledonia Builder's Inc. for future development projects.

Mike Munoz, President

Real Estate Enterprises Unlimited, Inc.

We've worked with Dan Achek and Caledonia Builders on a number of projects during the past five years and we've been extremely satisfied with the experience from start to finish. Dan brings a wealth of industry knowledge to the process and the finished product we've received has exceeded expectations. Dan and his staff took a hands-on approach throughout the construction process, they listened to any concerns we had, and worked with us to complete the job promptly. We would certainly use them in the future.
