

Week 7

MIS3535 | LEAD GLOBAL DIGITAL PROJECTS

PRODUCT BACKLOG

Studio Day

- By now you have completed your **product vision, story map** and prioritize your features (must, should, could, won't)
- How many detailed stories (or features) do you have?
- Today you will create your **product backlog** (part 2 of Assignment #2)

Studio Day

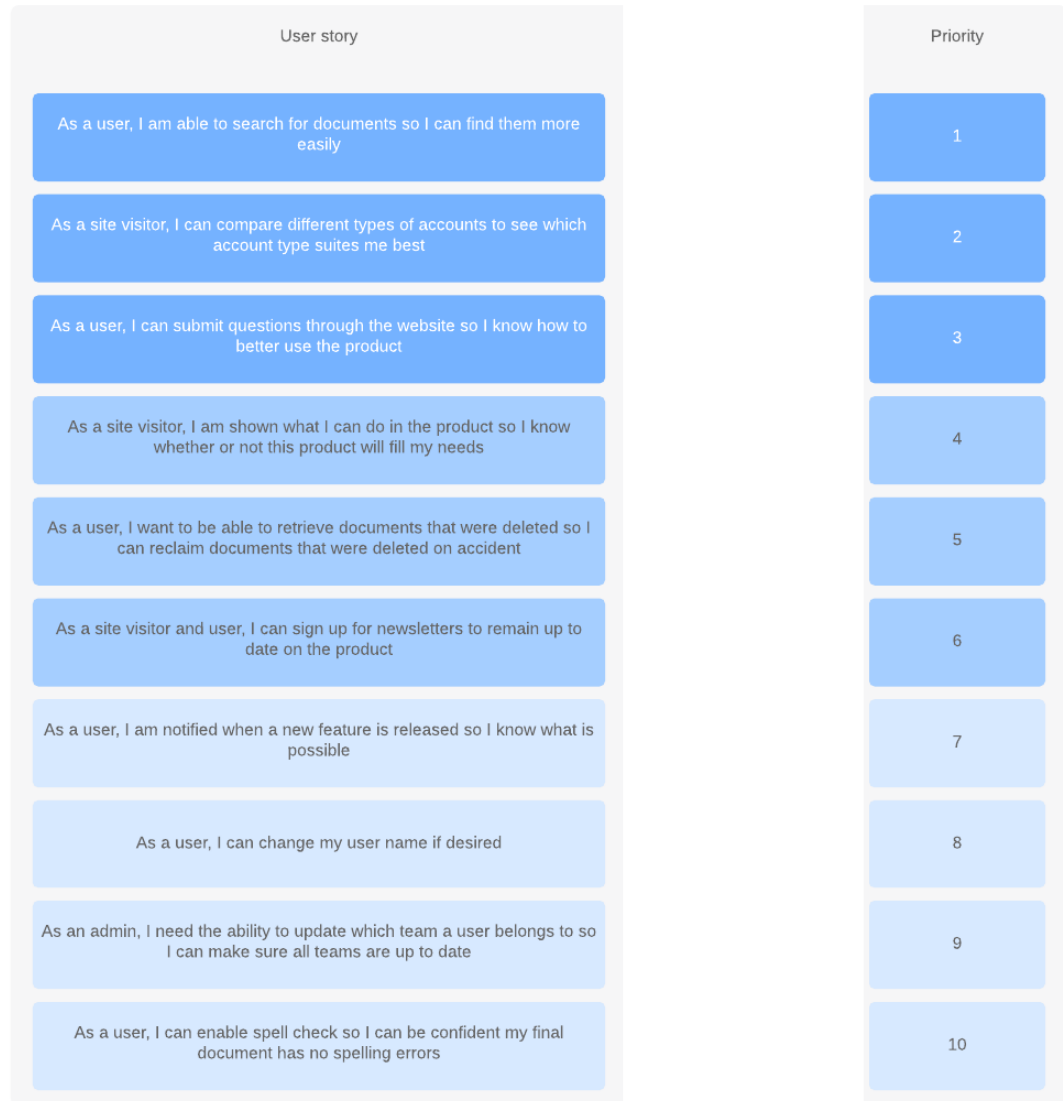

- Create the **Product Backlog** for your project
(see examples on the next slides)

Product backlog

1. **Prioritize your user stories**
2. **Estimate your stories – choose your technique for your relative estimation***
3. **Create an ID for each story (example on next slide)**

High priority

Low priority

Product backlog (example)

ToDo List

ID	Story	Estimation	Priority
7	As an unauthorized User I want to create a new account		1
1	As an unauthorized User I want to login		2
10	As an authorized User I want to logout		3
9	Create script to purge database		4
2	As an authorized User I want to see the list of items so that I can select one		5
4	As an authorized User I want to add a new item so that it appears in the list		6
3	As an authorized User I want to delete the selected item		7
5	As an authorized User I want to edit the selected item		8
6	As an authorized User I want to set a reminder for a selected item so that I am reminded when item is due		9
8	As an administrator I want to see the list of accounts on login		10
Total			

Product backlog (another example)

ID	User Story	Estimation	Priority
1	As a user, I want to receive up to date information on events and activities.	L	4
2	As a user, I want to sign up for upcoming events and activities.	S	5
3	As a user, I want to fill out the application to get assistance from the organization.	L	1
4	As a donor, I want to find a list of items that the organization needs.	XL	6
5	As a donor, I want to find a simple way to donate to the organization.	S	3
6	As an administrator, I want to collect our users' information in our database.	XL	2
7	As an administrator, I want to update our upcoming events on our website.	M	7
