Disaster Management Information Impact

D.4 Disaster Management

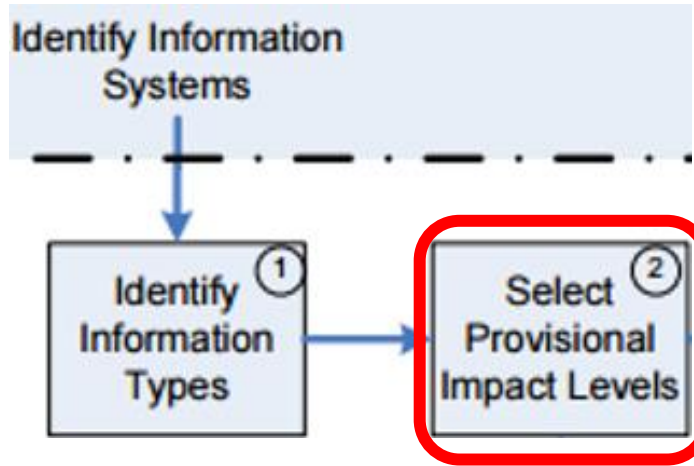

Disaster management involves the activities required to prepare for, mitigate, respond to, and repair the effects of all physical and humanitarian disasters whether natural or man-made. Compromise of much information associated with any of the missions within the disaster management mission area may seriously impact the security of a broad range of critical infrastructures and key national assets.

Can you use...

- [NIST SP 800-60 V.2 R1](#) to determine the Impact Levels for the Disaster Information Types ?

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	?	?	?	
Disaster Preparedness and Planning	?	?	?	
Disaster Repair and Restoration	?	?	?	
Emergency Response Information Type	?	?	?	

Disaster Management Information Types

D.4.1 Disaster Monitoring and Prediction Information Type

Disaster monitoring and prediction involves the actions taken to predict when and where a disaster may take place and communicate that information to affected parties. [Some disaster management information occurs in humanitarian aid systems under the International Affairs and Commerce line of business (e.g., State Department disaster preparedness and planning).] The recommended provisional categorization of the disaster monitoring and protection information type follows:

Security Category = {(confidentiality, Low), (integrity, High), (availability, High)}

D.4.2 Disaster Preparedness and Planning Information Type

Disaster preparedness and planning involves the development of response programs to be used in case of a disaster. This involves the development of emergency management programs and activities as well as staffing and equipping regional response centers. The recommended provisional categorization of the disaster preparedness and planning information type follows:

Security Category = {(confidentiality, Low), (integrity, Low), (availability, Low)}

D.4.3 Disaster Repair and Restoration Information Type

Disaster repair and restoration involves the cleanup and restoration activities that take place after a disaster. This involves the cleanup and rebuilding of any homes, buildings, roads, environmental resources, or infrastructure that may be damaged due to a disaster. The recommended provisional categorization of the disaster repair and restoration information type follows:

Security Category = {(confidentiality, Low), (integrity, Low), (availability, Low)}

Disaster Management Information Types

D.4.4 Emergency Response Information Type

Emergency Response involves the immediate actions taken to respond to a disaster (e.g., wildfire management). These actions include providing mobile telecommunications, operational support, power generation, search and rescue, and medical life saving actions. Impacts to emergency response information and the information systems that process and store emergency response information could result in negative impacts on cross-jurisdictional coordination within the critical emergency services infrastructure and the general effectiveness of organizations tasked with emergency response missions. The recommended provisional categorization of the emergency response information type follows:

Security Category = {(confidentiality, Low), (integrity, High), (availability, High)}

Question

- *Can you determine Summary Impact Levels for Disaster Information Types ?*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	?
Disaster Preparedness and Planning	Low	Low	Low	?
Disaster Repair and Restoration	Low	Low	Low	?
Emergency Response Information Type	Low	High	High	?

Answer...

- *Summary Impact Levels for the Disaster Information Types*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High

Question -

- *Can you determine Overall Impact Levels for Disaster Information Types?*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High
Information System Impact Ratings:	?	?	?	

Answer

- *Overall Impact Levels for the Disaster Information Types*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High
Information System Impact Ratings:	Low	High	High	

Question

- *Can you determine overall Impact Level of a system of Disaster Information Systems ?*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High
Information System Impact Ratings:	Low	High	High	?

Answer

- *Overall Impact Level of Disaster Information Systems*

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High
Information System Impact Ratings:	Low	High	High	High

3. Adjust Information Impact Level

Figure 2: SP 800-60 Security Categorization Process Execution

To adjust preliminary impact levels...

Use [NIST SP 800 60 V2R1](#)

- Working as an IT Audit and Cyber Security advisor to provider of telecommunications and internet services ...looking at the “**Special Factors**” affecting the Confidentiality impact level for Disaster Preparedness and Planning information type
- How might you adjust the impact level to be a better match to your client’s needs?

Disaster Management Information Systems				
Information Types	Confidentiality	Integrity	Availability	Summary Impact Level
Disaster Monitoring and Prediction	Low	High	High	High
Disaster Preparedness and Planning	Low	Low	Low	Low
Disaster Repair and Restoration	Low	Low	Low	Low
Emergency Response Information Type	Low	High	High	High
Information System Impact Ratings:	Low	High	High	High

2. Select Provisional Impact Levels for the identified information system

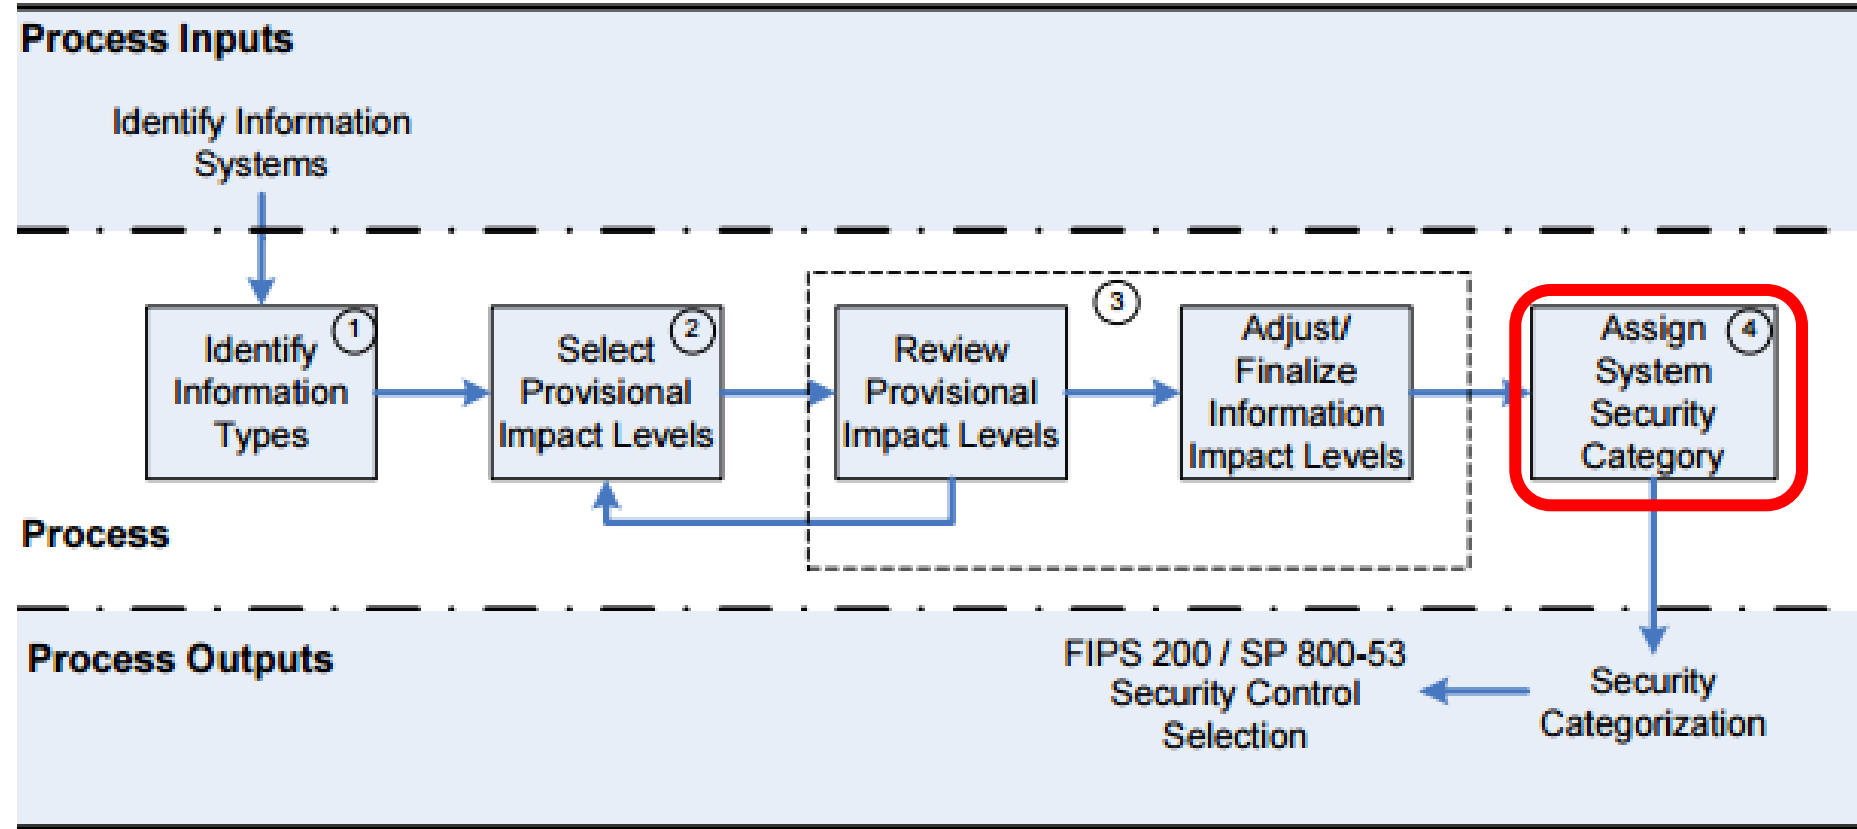

Figure 2: SP 800-60 Security Categorization Process Execution

Exercise 1: How would you approach assessing the completeness (breadth & depth) of the Generic Information Security Policy example?

MIS
MANAGEMENT INFORMATION SYSTEMS

Security Architecture
MIS 5214.701 • Spring 2024 • David Lanter

WEEKLY DISCUSSIONS

- 01 - Introduction (1)
- 01 - Threat Environment (3)
- 02 - System Security Plan (6)
- 03 - Planning and Policy (7)

Wrap Up

JANUARY 31, 2024 BY DAVID LANTER (EDIT)

Exercise 1:

How would you approach assessing the completeness (breadth and depth) of the Generic Information Security Policy example?

- Generic Information Security Policy Example

Exercise 2:

Find a preliminary categorization for the following information system and adjust the categorization based on your analysis – present justifications for both preliminary and adjusted categorizations

Purpose: The system has two overarching purposes:

- For clients it is a system intended to help understand sewage and storm water collection and treatment systems (i.e. pipe networks, pump

Information Security Policy

Purpose:
The purpose of this Policy is to establish the requirements and management expectations for protecting the organization's Confidential information systems and assets.

Applies to:
All computer and network systems, software, and paper files owned by and/or administered by the Organization. (Computer and network systems include, but are not limited to, the following items owned or leased by the Organization, and used by the Organization personnel for information access: servers, storage systems, personal or laptop computers, network equipment, telecommunications systems and mobile devices. Software includes operating systems, databases, and applications, whether developed by the Organization or purchased from software vendors, or shareware/freeware in use within production systems), all Organization employees worldwide, except where compliance with this policy would violate any law or regulation in the country where the subject is located, and components listed above that are managed or administered by third parties for the organization. Third parties include consultants, contractors, temporary workers, service providers, or business partners who access company system resources.

Definitions:
Please refer to Information Security Policies or Standards Definition, Organization Definitions Policy for applicable definitions.

Policy:

- Security Program Management:**
 - Information Security Program
 - This Information Security Policy outlines the responsibilities and expectations for security of information assets and information owned, held or licensed by the Organization. The controls described in this Policy are collectively known as the Organization's Information Security Program, which is designed to reflect the Company's business objectives, prevent the unauthorized use of or access to our information and information systems, and maintain the confidentiality, integrity, availability and resilience of information.
 - The Policy is guided by business and regulatory requirements specific to our business, and industry standards for information security and privacy. Specific business projects may require compliance with specific standards or directives pertinent to special categories, sensitive or classified information. A list of applicable laws, directives, and standards is maintained by the Policy owner.
 - The Information Security Policy describes the general controls and requirements for all areas of the Program, but references and links to other documents provide a greater level of detail. These documents, and the Enterprise Policy Manual, are part of the terms and conditions of employment with Organization and are acknowledged at the time of initial employment and annually thereafter. External parties, including contractors, consultants, or temporary personnel working for the Organization, must be provided with this Policy, and

Teams

- How would you approach assessing the completeness (breadth & depth) of the Generic Information Security Policy example, assuming it is the only such policy the firm has?

Exercise 2

Using NIST SP 800-60, find a preliminary categorization for the following cloud-based information system

Purpose: The system has two overarching purposes:

1. For clients it is a system intended to help understand sewage and storm water collection and treatment systems (i.e. pipe networks, pump stations, and treatment plants) and their capacities, overflow characteristics and controls
2. For the firm the system is intended to provide revenue through pay by clients for direct use of the service(s) of the system

Users:

1. Municipal and regional water and sewer utilities will use the system to help plan capital improvement, operations, and maintenance of sewer systems (i.e. treatment plants and sewage collection networks)

Exercise continues

You just learned: The organization intends to enable their systems' tenant organizations to include:

- Epidemiology information about locations of COVID positive samples taken from their sewage collection systems (i.e. pipe networks)
- Water system pipe networks that distribute water into the homes of utility customers along with their utility account identifiers and information identifying the existence and locations of dangerous lead-based water pipes used to bring water into their homes

Using NIST SP 800-60, augment the information types included in your security categorization and update your preliminary categorization for the information system...

Agenda

- ✓ Risk Management Framework and IS Security Categorization
- ✓ Mapping Information Types to Security Categorizations
- ✓ *Team Exercise – Determine Information and Information System Types and provisional security categorization*
- Security Control Baselines – review
 - Minimum Security Controls and Security Control Baselines
 - Security Control Families
- Risk Assessment Controls
- *Team Exercise Find and assess risk assessment policy*

PL-01 POLICY AND PROCEDURES	
ASSESSMENT OBJECTIVE: <i>Determine if:</i>	
PL-01_ODP[01]	personnel or roles to whom the planning policy is to be disseminated is/are defined;
PL-01_ODP[02]	personnel or roles to whom the planning procedures are to be disseminated is/are defined;
PL-01_ODP[03]	one or more of the following PARAMETER VALUES is/are selected: {organization-level; mission/business process-level; system-level};
PL-01_ODP[04]	an official to manage the planning policy and procedures is defined;
PL-01_ODP[05]	the frequency with which the current planning policy is reviewed and updated is defined;
PL-01_ODP[06]	events that would require the current planning policy to be reviewed and updated are defined;
PL-01_ODP[07]	the frequency with which the current planning procedures are reviewed and updated is defined;
PL-01_ODP[08]	events that would require procedures to be reviewed and updated are defined;
PL-01a.[01]	a planning policy is developed and documented.
PL-01a.[02]	the planning policy is disseminated to <PL-01_ODP[01] personnel or roles>;
PL-01a.[03]	planning procedures to facilitate the implementation of the planning policy and associated planning controls are developed and documented;
PL-01a.[04]	the planning procedures are disseminated to <PL-01_ODP[02] personnel or roles>;
PL-01a.01(a)[01]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses purpose;
PL-01a.01(a)[02]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses scope;
PL-01a.01(a)[03]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses roles;
PL-01a.01(a)[04]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses responsibilities;
PL-01a.01(a)[05]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses management commitment;
PL-01a.01(a)[06]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses coordination among organizational entities;
PL-01a.01(a)[07]	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy addresses compliance;
PL-01a.01(b)	the <PL-01_ODP[03] SELECTED PARAMETER VALUE(S)> planning policy is consistent with applicable laws, Executive Orders, directives, regulations, policies, standards, and guidelines;

PL-01 POLICY AND PROCEDURES	
PL-01b.	the <PL-01_ODP[04] official> is designated to manage the development, documentation, and dissemination of the planning policy and procedures;
PL-01c.01[01]	the current planning policy is reviewed and updated <PL-01_ODP[05] frequency>;
PL-01c.01[02]	the current planning policy is reviewed and updated following <PL-01_ODP[06] events>;
PL-01c.02[01]	the current planning procedures are reviewed and updated <PL-01_ODP[07] frequency>;
PL-01c.02[02]	the current planning procedures are reviewed and updated following <PL-01_ODP[08] events>.
POTENTIAL ASSESSMENT METHODS AND OBJECTS:	
PL-01-Examine	[SELECT FROM: Planning policy and procedures; system security plan; privacy plan; other relevant documents or records]
PL-01-Interview	[SELECT FROM: Organizational personnel with planning responsibilities; organizational personnel with information security and privacy responsibilities].

ODP = Organizational-defined parameters

PL-02	SYSTEM SECURITY AND PRIVACY PLANS	
ASSESSMENT OBJECTIVE: <i>Determine if:</i>		
PL-02_ODP[01]	<i>Individuals or groups with whom security and privacy-related activities affecting the system that require planning and coordination is/are assigned;</i>	
PL-02_ODP[02]	<i>personnel or roles to receive distributed copies of the system security and privacy plans is/are assigned;</i>	
PL-02_ODP[03]	<i>frequency to review system security and privacy plans is defined;</i>	
PL-02a.01[01]	a security plan for the system is developed that is consistent with the organization's enterprise architecture;	
PL-02a.01[02]	a privacy plan for the system is developed that is consistent with the organization's enterprise architecture;	
PL-02a.02[01]	a security plan for the system is developed that explicitly defines the constituent system components;	
PL-02a.02[02]	a privacy plan for the system is developed that explicitly defines the constituent system components;	
PL-02a.03[01]	a security plan for the system is developed that describes the operational context of the system in terms of mission and business processes;	
PL-02a.03[02]	a privacy plan for the system is developed that describes the operational context of the system in terms of mission and business processes;	
PL-02a.04[01]	a security plan for the system is developed that identifies the individuals that fulfill system roles and responsibilities;	
PL-02a.04[02]	a privacy plan for the system is developed that identifies the individuals that fulfill system roles and responsibilities;	

PL-02a.05[01]	a security plan for the system is developed that identifies the information types processed, stored, and transmitted by the system;
PL-02a.05[02]	a privacy plan for the system is developed that identifies the information types processed, stored, and transmitted by the system;
PL-02a.06[01]	a security plan for the system is developed that provides the security categorization of the system, including supporting rationale;
PL-02a.06[02]	a privacy plan for the system is developed that provides the security categorization of the system, including supporting rationale;
PL-02a.07[01]	a security plan for the system is developed that describes any specific threats to the system that are of concern to the organization;
PL-02a.07[02]	a privacy plan for the system is developed that describes any specific threats to the system that are of concern to the organization;
PL-02a.08[01]	a security plan for the system is developed that provides the results of a privacy risk assessment for systems processing personally identifiable information;
PL-02a.08[02]	a privacy plan for the system is developed that provides the results of a privacy risk assessment for systems processing personally identifiable information;
PL-02a.09[01]	a security plan for the system is developed that describes the operational environment for the system and any dependencies on or connections to other systems or system components;
PL-02a.09[02]	a privacy plan for the system is developed that describes the operational environment for the system and any dependencies on or connections to other systems or system components;
PL-02a.10[01]	a security plan for the system is developed that provides an overview of the security requirements for the system;
PL-02a.10[02]	a privacy plan for the system is developed that provides an overview of the privacy requirements for the system;
PL-02a.11[01]	a security plan for the system is developed that identifies any relevant control baselines or overlays, if applicable;
PL-02a.11[02]	a privacy plan for the system is developed that identifies any relevant control baselines or overlays, if applicable;
PL-02a.12[01]	a security plan for the system is developed that describes the controls in place or planned for meeting the security requirements, including rationale for any tailoring decisions;
PL-02a.12[02]	a privacy plan for the system is developed that describes the controls in place or planned for meeting the privacy requirements, including rationale for any tailoring decisions;
PL-02a.13[01]	a security plan for the system is developed that includes risk determinations for security architecture and design decisions;
PL-02a.13[02]	a privacy plan for the system is developed that includes risk determinations for privacy architecture and design decisions;
PL-02a.14[01]	a security plan for the system is developed that includes security-related activities affecting the system that require planning and coordination with <PL-02_ODP[01] individuals or groups>;

PL-02	SYSTEM SECURITY AND PRIVACY PLANS	
PL-02a.14[02]	a privacy plan for the system is developed that includes privacy-related activities affecting the system that require planning and coordination with <PL-02_ODP[01] individuals or groups>;	
PL-02a.15[01]	a security plan for the system is developed that is reviewed and approved by the authorizing official or designated representative prior to plan implementation;	
PL-02a.15[02]	a privacy plan for the system is developed that is reviewed and approved by the authorizing official or designated representative prior to plan implementation.	
PL-02b.[01]	copies of the plans are distributed to <PL-02_ODP[02] personnel or roles>;	
PL-02b.[02]	subsequent changes to the plans are communicated to <PL-02_ODP[02] personnel or roles>;	
PL-02c.	plans are reviewed <PL-02_ODP[03] frequency>;	
PL-02d.[01]	plans are updated to address changes to the system and environment of operations;	
PL-02d.[02]	plans are updated to address problems identified during the plan implementation;	
PL-02d.[03]	plans are updated to address problems identified during control assessments;	
PL-02e.[01]	plans are protected from unauthorized disclosure;	
PL-02e.[02]	plans are protected from unauthorized modification.	
POTENTIAL ASSESSMENT METHODS AND OBJECTS:		
PL-02-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing system security and privacy plan development and implementation; procedures addressing security and privacy plan reviews and updates; enterprise architecture documentation; system security plan; privacy plan; records of system security and privacy plan reviews and updates; security and privacy architecture and design documentation; risk assessments; risk assessment results; control assessment documentation; other relevant documents or records].	
PL-02-Interview	[SELECT FROM: Organizational personnel with system security and privacy planning and plan implementation responsibilities; system developers; organizational personnel with information security and privacy responsibilities].	
PL-02-Test	[SELECT FROM: Organizational processes for system security and privacy plan development, review, update, and approval; mechanisms supporting the system security and privacy plan].	

CONTROL NUMBER	CONTROL NAME CONTROL ENHANCEMENT NAME	PRIVACY CONTROL BASELINE	SECURITY CONTROL BASELINES		
			LOW	MOD	HIGH
PL-1	Policy and Procedures	x	x	x	x

PL-04		RULES OF BEHAVIOR
ASSESSMENT OBJECTIVE: <i>Determine if:</i>		
PL-04_ODP[01]	<i>frequency for reviewing and updating the rules of behavior is defined;</i>	
PL-04_ODP[02]	<i>one or more of the following PARAMETER VALUES is/are selected: {<PL-04_ODP[03] frequency>; when the rules are revised or updated};</i>	
PL-04_ODP[03]	<i>frequency for individuals to read and re-acknowledge the rules of behavior is defined (if selected);</i>	
PL-04a.[01]	rules that describe responsibilities and expected behavior for information and system usage, security, and privacy are established for individuals requiring access to the system;	
PL-04a.[02]	rules that describe responsibilities and expected behavior for information and system usage, security, and privacy are provided to individuals requiring access to the system;	
PL-04b.	before authorizing access to information and the system, a documented acknowledgement from such individuals indicating that they have read, understand, and agree to abide by the rules of behavior is received;	
PL-04c.	rules of behavior are reviewed and updated <PL-04_ODP[01] frequency>;	
PL-04d.	individuals who have acknowledged a previous version of the rules of behavior are required to read and reacknowledge <PL-04_ODP[02] SELECTED PARAMETER VALUE(S)>.	
POTENTIAL ASSESSMENT METHODS AND OBJECTS:		
PL-04-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing rules of behavior for system users; rules of behavior; signed acknowledgements; records for rules of behavior reviews and updates; other relevant documents or records].	
PL-04-Interview	[SELECT FROM: Organizational personnel with responsibility for establishing, reviewing, and updating rules of behavior; organizational personnel with responsibility for literacy training and awareness and role-based training; organizational personnel who are authorized users of the system and have signed and resigned rules of behavior; organizational personnel with information security and privacy responsibilities].	
PL-04-Test	[SELECT FROM: Organizational processes for establishing, reviewing, disseminating, and updating rules of behavior; mechanisms supporting and/or implementing the establishment, review, dissemination, and update of rules of behavior].	

PL-04(01)		RULES OF BEHAVIOR SOCIAL MEDIA AND EXTERNAL SITE/APPLICATION USAGE RESTRICTIONS
ASSESSMENT OBJECTIVE: <i>Determine if:</i>		
PL-04(01)(a)	the rules of behavior include restrictions on the use of social media, social networking sites, and external sites/applications;	
PL-04(01)(b)	the rules of behavior include restrictions on posting organizational information on public websites;	
PL-04(01)(c)	the rules of behavior include restrictions on the use of organization-provided identifiers (e.g., email addresses) and authentication secrets (e.g., passwords) for creating accounts on external sites/applications.	
POTENTIAL ASSESSMENT METHODS AND OBJECTS:		
PL-04(01)-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing rules of behavior for system users; rules of behavior; training policy; other relevant documents or records].	
PL-04(01)-Interview	[SELECT FROM: Organizational personnel with responsibility for establishing, reviewing, and updating rules of behavior; organizational personnel with responsibility for literacy training and awareness and role-based training; organizational personnel who are authorized users of the system and have signed rules of behavior; organizational personnel with information security and privacy responsibilities].	
PL-04(01)-Test	[SELECT FROM: Organizational processes for establishing rules of behavior; mechanisms supporting and/or implementing the establishment of rules of behavior].

PL-08 SECURITY AND PRIVACY ARCHITECTURES	
ASSESSMENT OBJECTIVE: <i>Determine if:</i>	
PL-08_ODP	<i>frequency for review and update to reflect changes in the enterprise architecture;</i>
PL-08a.01	a security architecture for the system describes the requirements and approach to be taken for protecting the confidentiality, integrity, and availability of organizational information;
PL-08a.02	a privacy architecture describes the requirements and approach to be taken for processing personally identifiable information to minimize privacy risk to individuals;
PL-08a.03[01]	a security architecture for the system describes how the architecture is integrated into and supports the enterprise architecture;
PL-08a.03[02]	a privacy architecture for the system describes how the architecture is integrated into and supports the enterprise architecture;
PL-08a.04[01]	a security architecture for the system describes any assumptions about and dependencies on external systems and services;
PL-08a.04[02]	a privacy architecture for the system describes any assumptions about and dependencies on external systems and services;
PL-08b.	changes in the enterprise architecture are reviewed and updated <PL-08_ODP frequency> to reflect changes in the enterprise architecture;
PL-08c.[01]	planned architecture changes are reflected in the security plan;
PL-08c.[02]	planned architecture changes are reflected in the privacy plan;
PL-08c.[03]	planned architecture changes are reflected in the Concept of Operations (CONOPS);
PL-08c.[04]	planned architecture changes are reflected in criticality analysis;
PL-08c.[05]	planned architecture changes are reflected in organizational procedures;
PL-08c.[06]	planned architecture changes are reflected in procurements and acquisitions.

PL-08 SECURITY AND PRIVACY ARCHITECTURES	
POTENTIAL ASSESSMENT METHODS AND OBJECTS:	
PL-08-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing information security and privacy architecture development; procedures addressing information security and privacy architecture reviews and updates; enterprise architecture documentation; information security and privacy architecture documentation; system security plan; privacy plan; security and privacy CONOPS for the system; records of information security and privacy architecture reviews and updates; other relevant documents or records].
PL-08-Interview	[SELECT FROM: Organizational personnel with security and privacy planning and plan implementation responsibilities; organizational personnel with information security and privacy architecture development responsibilities; organizational personnel with information security and privacy responsibilities].
PL-08-Test	[SELECT FROM: Organizational processes for developing, reviewing, and updating the information security and privacy architecture; mechanisms supporting and/or implementing the development, review, and update of the information security and privacy architecture].

PL-08(01) SECURITY AND PRIVACY ARCHITECTURES DEFENSE IN DEPTH	
ASSESSMENT OBJECTIVE: <i>Determine if:</i>	
PL-08(01)_ODP[01]	<i>controls to be allocated are defined;</i>
PL-08(01)_ODP[02]	<i>locations and architectural layers are defined;</i>
PL-08(01)(a)[01]	the security architecture for the system is designed using a defense-in-depth approach that allocates <PL-08(01)_ODP[01] controls> to <PL-08(01)_ODP[02] locations and architectural layers>;
PL-08(01)(a)[02]	the privacy architecture for the system is designed using a defense-in-depth approach that allocates <PL-08(01)_ODP[01] controls> to <PL-08(01)_ODP[02] locations and architectural layers>;
PL-08(01)(b)[01]	the security architecture for the system is designed using a defense-in-depth approach that ensures the allocated controls operate in a coordinated and mutually reinforcing manner;
PL-08(01)(b)[02]	the privacy architecture for the system is designed using a defense-in-depth approach that ensures the allocated controls operate in a coordinated and mutually reinforcing manner.
POTENTIAL ASSESSMENT METHODS AND OBJECTS:	
PL-08-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing information security and privacy architecture development; enterprise architecture documentation; information security and privacy architecture documentation; system security plan; privacy plan; security and privacy CONOPS for the system; other relevant documents or records].
PL-08-Interview	[SELECT FROM: Organizational personnel with security and privacy planning and plan implementation responsibilities; organizational personnel with information security and privacy architecture development responsibilities; organizational personnel with information security and privacy responsibilities].
PL-08-Test	[SELECT FROM: Organizational processes for designing the information security and privacy architecture; mechanisms supporting and/or implementing the design of the information security and privacy architecture].

PL-10		BASELINE SELECTION
ASSESSMENT OBJECTIVE: <i>Determine if:</i>		
PL-10	a control baseline for the system is selected.	
POTENTIAL ASSESSMENT METHODS AND OBJECTS:		
PL-10-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing system security and privacy plan development and implementation; procedures addressing system security and privacy plan reviews and updates; system design documentation; system architecture and configuration documentation; system categorization decision; information types stored, transmitted, and processed by the system; system element/component information; stakeholder needs analysis; list of security and privacy requirements allocated to the system, system elements, and environment of operation; list of contractual requirements allocated to external providers of the system or system element; business impact analysis or criticality analysis; risk assessments; risk management strategy; organizational security and privacy policy; federal or organization-approved or mandated baselines or overlays; system security plan; privacy plan; other relevant documents or records].	
PL-10-Interview	[SELECT FROM: Organizational personnel with security and privacy planning and plan implementation responsibilities; organizational personnel with information security and privacy responsibilities; organizational personnel with responsibility for organizational risk management activities].	

CONTROL NUMBER	CONTROL NAME CONTROL ENHANCEMENT NAME	PRIVACY CONTROL BASELINE	SECURITY CONTROL BASELINES		
			LOW	MOD	HIGH
PL-1	Policy and Procedures	x	x	x	x
PL-2	System Security and Privacy Plans	x	x	x	x
PL-2(1)	CONCEPT OF OPERATIONS	W: Incorporated into PL-7.			
PL-2(2)	FUNCTIONAL ARCHITECTURE	W: Incorporated into PL-8.			
PL-2(3)	PLAN AND COORDINATE WITH OTHER ORGANIZATIONAL ENTITIES	W: Incorporated into PL-2.			
PL-3	System Security Plan Update	W: Incorporated into PL-2.			
PL-4	Rules of Behavior	x	x	x	x
PL-4(1)	SOCIAL MEDIA AND EXTERNAL SITE/APPLICATION USAGE RESTRICTIONS	x	x	x	x
PL-5	Privacy Impact Assessment	W: Incorporated into RA-8.			
PL-6	Security-Related Activity Planning	W: Incorporated into PL-2.			
PL-7	Concept of Operations				
PL-8	Security and Privacy Architectures	x		x	x
PL-8(1)	DEFENSE IN DEPTH				
PL-8(2)	SUPPLIER DIVERSITY				
PL-9	Central Management	x			
PL-10	Baseline Selection		x	x	x
PL-11	Baseline Tailoring		x	x	x

Business Area	Business Area ID	Information Type	Confidentiality	Integrity	Availability	Security Categorization	Sub-System Categorization	System Categorization
Environmental Management	D.8.3	Pollution Prevention and Control	Low	Low	Low	Low	Moderate	Moderate

Security Baseline Determination Example

Business Area	Business Area ID	Information Type	Confidentiality	Integrity	Availability	Security Categorization	Sub-System Categorization	System Categorization
Environmental Management	D.8.3	Pollution Prevention and Control	Low	Low	Low	Low	<i>Moderate</i>	<i>Moderate</i>
Public Goods Creation & Management	D.22.3	Public Resources, Facility and Infrastructure Management	Low	Low	Low	Low		
Health	D.14.2	Population Health Management and Consumer Safety	Low	Moderate	Low	Moderate		
Financial Management	C.3.2.6	Collections and Receivables	Low	Moderate	Low	Low		
Tenant Data			Low	Moderate	Low	Moderate		
Information & Technology Management	C.3.5.5	Information Security	Low	Moderate	Low	Moderate	<i>Moderate</i>	
Information & Technology Management	C.3.5.6	Record Retention	Low	Low	Low	Low		
Information & Technology Management	C.3.5.7	Information Management	Low	Moderate	Low	Moderate		
Information & Technology Management	C.3.5.8	System and Network Monitoring	Moderate	Moderate	Low	Moderate		
System Data			Moderate	Moderate	Low	Moderate		

PL-11		BASELINE TAILORING	
ASSESSMENT OBJECTIVE: <i>Determine if:</i>			
PL-11	the selected control baseline is tailored by applying specified tailoring actions.		
POTENTIAL ASSESSMENT METHODS AND OBJECTS:			
PL-11-Examine	[SELECT FROM: Security and privacy planning policy; procedures addressing system security and privacy plan development and implementation; system design documentation; system categorization decision; information types stored, transmitted, and processed by the system; system element/component information; stakeholder needs analysis; list of security and privacy requirements allocated to the system, system elements, and environment of operation; list of contractual requirements allocated to external providers of the system or system element; business impact analysis or criticality analysis; risk assessments; risk management strategy; organizational security and privacy policy; federal or organization-approved or mandated baselines or overlays; baseline tailoring rationale; system security plan; privacy plan; records of system security and privacy plan reviews and updates; other relevant documents or records].		
PL-11-Interview	[SELECT FROM: Organizational personnel with security and privacy planning and plan implementation responsibilities; organizational personnel with information security and privacy responsibilities].		

CONTROL NUMBER	CONTROL NAME CONTROL ENHANCEMENT NAME	PRIVACY CONTROL BASELINE	SECURITY CONTROL BASELINES

PL-10	Baseline Selection		x	x	x
PL-11	Baseline Tailoring		x	x	x

Agenda

- ✓ In the News
- ✓ Teams
- ✓ NIST Risk Management Framework and FIPS 199
- ✓ Use of NIST SP 800-60 Volume 1 and Volume 2
- ✓ *Exercise: How to assess and information security policy?*
- ✓ *Exercise – Determine Information and Information System Types and provisional security categorization*
- ✓ Security Control Baselines – review
 - ✓ FIPS 200 and NIST 800-53 Security Control Baselines
 - ✓ Security Control Families
- ✓ Planning Controls

Unit #3

MIS5214

Planning and Policy
