EDUCATION

Temple University – Fox School of Business, Philadelphia, PA

Bachelor of Business Administration

December 2026

Major: Management Information Systems | GPA: 3.6

EXPERIENCE

Exelon Corporation

Project Management Internship (2026)

- Created and distributed operational update communications to approximately 270 employees, improving visibility into project progress, system enhancements, and issue resolution efforts
- Managed issue tracking and intake activities by maintaining tracking spreadsheets, participating in issue review meetings, monitoring issue progress, and communicating status updates and project information to stakeholders.
- Conducted informational interviews and documented responsibilities, projects, and operational processes for 35+ employees across multiple departments
- Conducted analysis and classification of 250+ Azure DevOps (ADO) work items as part of an enhancement project, improving organization and data consistency
- Met with customer operations, directors, executives, and the Exelon CEO, gaining exposure to leadership perspectives, strategic decision-making and utility operations

PROJECT EXPERIENCE

Exelon Corporation

Exelon Group Project Internship (2026)

- Collaborated with 4 interns to analyze customer outage communication challenges and identify opportunities for digital transformation
- Designed and developed a clickable mobile application prototype that provides real-time outage updates, restoration notifications, and customer communication features
- Presented recommendations and prototype solutions to leadership, demonstrating the application of user experience design, problem-solving, and business technology integration

Temple University (2026)

McNeese State University (2023)

- Balanced 20+ hours of training and analysis weekly with a full academic course load, demonstrating discipline, time management, and resilience
- Conducted 5 hours per week of film review and performance analysis to generate actionable insights and improve decision-making under pressure
- Collaborated with a high-performing team to set objectives, execute strategies, and achieve results under strict deadlines, demonstrating leadership and adaptability
