PROJECTS

The Embodied Intelligence, DIF

- Researched and implemented digital solutions to enhance AI-driven hospitality interactions, ensuring alignment with customer needs and seamless user engagement.
- Designed and built an AI avatar system using JavaScript, integrating APIs such as OpenAI and Azure Speech on a WordPress and WooCommerce platform to optimize functionality.
- Developed an intuitive user experience (UX) that enhances AI avatar interactions, ensuring usability and effectiveness in real-world hospitality applications.

E-commerce Websites Development

- Developed multiple e-commerce platforms, including LY DEV, PY4G, KNGR, and Oasis Joylight, ensuring scalability and seamless user experiences.
- Integrated diverse payment solutions using Python and PHP to implement APIs such as Thawani, cryptocurrency, Stripe, and PayPal, enhancing transaction flexibility and availability.

EXPERIENCE

Digital Innovation Foundry, IBIT, Temple University

November 2024 - Present

Digital Consultant

- Researched and developed digital solutions for industry partners, identifying cost-effective and scalable approaches to support their transformation initiatives.
- Designed and implemented innovative digital projects, ensuring seamless integration with existing systems while optimizing performance and usability.
- Collaborated with cross-functional teams to refine project requirements, streamline development processes, and align solutions with business objectives.
- Presented project updates and recommendations to relevant teams and decision-makers, ensuring clarity in technical solutions and their impact on business goals.

IMoPvP Cloud Hosting

2019 – 2021

Founder

- Launched and managed a cloud hosting business, providing cost-effective, low-latency VPS solutions tailored for web scraping and botting.
- Deployed and maintained 7+ high-performance servers from Hetzner (64GB RAM each) using Virtualizor KVM software, optimizing resources for maximum efficiency.
- Grew the business to 4,000+ orders, outperforming competitors in both pricing and performance while ensuring seamless client operations.
- Handled full business operations, including server provisioning, technical support, and client management, delivering a reliable and scalable hosting service.

ACTIVITIES

Member, Omani Students Association in Philadelphia

October 2022 – Present

Student Ambassador, University of Pennsylvania ELP

January 2023 – April 2023
