PROJECTS

Proximity

- Employed Okta, NodeJS, ReactJS, AWS, and DynamoDB to create complete end-to-end web-based application that allowed employees to self-report their decisions on whether they were going into office on certain days in order to improve worker performance

Covid-19 Data Research

- Utilized Excel and Tableau to clean real-world CDC data and create visualizations to determine the efficacy of Covid-19 vaccines

EXPERIENCE

CIGNA, Philadelphia, PA

May 2022 – August 2022

Software Engineer

- Utilized Linux and Python to pull and manipulate data from AWS and Domino
- Automated a variety of tasks using Python and Lambda in order to detect anomalies in EC2 instances and save the company \$1000+ every month
- Worked within a high performing agile team of fellow interns to create a complete end-to-end software application that tracks employee working habits using JavaScript, HTML/CSS, DynamoDB, and NodeJS
- Presented our software application in front of hundreds and placed top-3 overall

BERKSHIRE HATHAWAY FOX AND ROACH, Devon, PA

May 2021 – August 2021

Real Estate Analyst

- Analyzed data using Excel, accounting software, and critical thinking skills in a productive manner for a real estate company serving 50K+ clients
- Aided in the completion of up to \$1M real estate transactions with data from 10-20 contracts daily
- Collaborated with a team and used time management skills to aid in the smooth progress of business for a 5K+ employee company

SKILLS

Software: Python/Pandas, Linux, AWS, Lambda, DynamoDB, Domino, MySQL, MongoDB/NoSQL, JavaScript, HTML/CSS, Git, jQuery, Tableau, Jira, Excel, Salesforce
