## WORK EXPERIENCE

### Extern, Amazon

Remote

Operational Strategy & People Analytics Extern

Jun 2025 - Present

- Analyzed unstructured feedback from fulfillment center employees to uncover attrition risks and operational inefficiencies
- Applied thematic coding and cohort segmentation to surface role-specific blockers, influencing strategy recommendations
- Created executive-ready strategy decks, translating employee insights into data-backed business actions

### FIN Digital

Washington, DC

AI & ML Intern | Development and Testing Intern

Apr 2023 – Aug 2023 | Jun 2025 – Present

- Built ML models to match high school athletes with scholarships using performance-based features from over 150 schools
- Developed core features for a Claims Calculator web app to help underserved users estimate insurance payouts without a broker, integrating OCR and artificial intelligence tools to extract and analyze damage data from uploaded images
- Wireframed Figma designs for technical feasibility, collaborating with engineering to identify potential roadblocks

### Extern, Beats by Dre

Remote

Qualitative & Quantitative Insights Extern

Apr 2025 – July 2025

- Conducted Gen Z audio preference analysis using NLP tools and Python to identify brand sentiment and emerging trends
- Built interactive data visualizations summarizing feedback across product lines to guide marketing and product decisions
- Presented key consumer insights and strategic recommendations in stakeholder briefings

### Temple University Fox Fund

Philadelphia, PA

Associate Analyst – Commodities Sector

Feb 2023 – June 2023

- Led market analysis on commodity sector companies using FactSet and Capital IQ for stock pitch presentations
- Presented investment theses to 100+ audience members, improving data storytelling and stakeholder engagement
- Drafted in-depth investment banking reports detailing company catalysts, financial risks, and valuation

## TECHNICAL PROJECTS

### TUVenture — Founder/UX Designer

Jan 2024 – Present

- Spearheaded the development of an e-commerce platform during a hackathon to reduce Temple community waste and support low-income students; continued post-event by designing wireframes and models in Figma
- Led a team of three, driving product vision from concept to prototype using design thinking and market research while conducting usability tests and heuristic evaluations to enhance user experience and app performance

### Lunchie — Technical Project Manager/Figma Design Engineer

Sept. 2024 – Present

- Led cross-functional planning and agile execution for Lunchie, a campus food sustainability app, by organizing team sprints, defining user stories, and aligning design, technical, and stakeholder goals to deliver a mission-driven product
- Designed and prototyped a user-centered interface in Figma, incorporating real-time alerts, vendor integration, and accessibility features to streamline access to surplus meals for students in need

## LEADERSHIP & AFFILIATIONS
