Risk & Financial Advisory – Technology Intern

- Helped our clients advance transparency, relevance, and the quality of information disclosed to the markets and investors so that they could meet regulatory and attestation requirements.
- Inspected accounting systems and controls for improvement opportunities, leveraging our methodologies to help clients improve their information technology controls or technology risk management programs, and/or participate in the development or execution of internal audit strategic plans.
- Assisted our clients with defining and implementing strategies to manage their Attack surface focusing on the continuous discovery, inventory, classification, and monitoring of an organization's IT infrastructure.
- Engaged with clients to measure, assess, and advise on ways they can reduce risk as it relates to the enterprise resource planning (ERP) platform.

SKILLS

Languages: Fluent in Gujarati, Hindi, English
