EDUCATION

TEMPLE UNIVERSITY

BBA Management Information Systems

Philadelphia, PA

Anticipated graduation: 2027

RELEVANT COURSEWORK

- Cloud Architecture
- Data and Analytics
- Web Application Development
- Intro to Problem Solving & Programming in Python
- User Experience Design
- Digital Systems

PROJECT EXPERIENCE

Web Application Development

- Developed dynamic web applications using JavaScript, HTML5, and CSS, implementing core programming concepts like variables, loops, functions, and objects.
- Worked with Web APIs and HTTP protocols to retrieve and manipulate data, enhancing client-server interactions.
- Built and debugged single-page applications (SPA) using jQuery, while implementing user input validation and responsive design with Bootstrap.

RideWise – Smart Ride-Sharing Risk Assessment | Python, Streamlit, Pandas, HTML/CSS

- Built an AI-driven web tool that predicts Uber/Lyft surge multipliers from time, weather, location, and demand signals, then recommends cost-optimal travel window's
- Integrated weather APIs and a curated dataset of past ride incidents to compute a dynamic safety score for each ride.
- Designed a clean interface for users to submit trip details and view transparent, data-backed risk explanations

WORK EXPERIENCE

LA Fitness Sales Counselor/Customer Service

October 2024-July 2025

- Guide prospective members and secure new enrollments through tours, presentations, and promotions
- Delivering excellent customer service by assisting members with inquiries, resolving issues, and ensuring a positive club experience.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, SQL
- **Web Technologies:** HTML, CSS
- **Databases:** MySQL, NoSQL
- **Data Analysis & Tools:** Microsoft 365, Microsoft Excel (Pivot Tables, Data Visualization)
