PROJECTS

Diabetes Decision Tree, Data Analytics

March 2023 – May 2023

- Selected and cleaned medical data of two groups of patients – diabetics and nondiabetics.
- Trained an algorithm in Python with the data and created a decision tree to determine the likelihood of a patient having diabetes based on their medical data.

Data Analysis of Healthcare Sector, Data Science

October 2022 – December 2022

- Compiled data from financial reports of the top Healthcare companies in America
- Used Tableau and Excel to analyze the data and create informative visuals.
- Pitched findings to class and discussed financial health and the projected future of the companies.

EXPERIENCE

SHERWIN-WILLIAMS, Philadelphia, PA

February 2023 – Present

Store Associate

- Play an integral role in supporting the daily operations of a retail paint store with sales in excess of \$10,000 a day.
- Foster relationships with large volume contractor accounts to meet customer needs and increase sales.
- Plan strategies to meet quarterly sales goals with coworkers.
- Collaborate with other Sherwin-Williams locations to fulfill large orders and maintain minimum inventory standards.

MAIL & PRINT, Sinking Spring, PA

June 2021 – Present

Technical Associate

- Help with day-to-day operations at a FedEx & UPS authorized ship center and printshop by making copies, generating labels for shipments, and providing packaging service
- Utilize PostalMate to assess shipping reports, monitor transaction activity, and ensure accurate rates for the packages shipped
- Provide quality customer service by utilizing various software platforms, such as Photoshop and Illustrator, to fulfill custom print orders
