WORK EXPERIENCE:

RYBREW, Philadelphia, PA

June 2023 – Present

Sandwich Maker/Expo

- Prepared and assembled a variety of sandwiches based on customer specifications, ensuring each item met high standards for taste and presentation.
- Operated the cash register and handled transactions with precision, including cash, credit, and debit payments, while providing excellent customer service.
- Managed expo duties, including coordinating orders between the kitchen staff and front-of-house to ensure accurate and timely delivery, effectively reducing order wait times and improving customer satisfaction.
- Monitored food quality and freshness, adhering to health and safety regulations to maintain a clean, organized, and sanitary work environment.

FUTURE STARS DAY CAMP, Philadelphia, PA

June 2016 – August 2019

Summer Camp Counselor - Seasonal

- Built lasting relationships with over 25 campers each summer, creating a supportive and inclusive camp environment by focusing on individual needs and fostering teamwork through group activities.
- Ensured the safety and well-being of campers by rigorously following camp safety protocols, monitoring behavior, and proactively addressing any incidents, earning recognition for maintaining a secure camp atmosphere.
- Designed and facilitated daily activities for children aged 4-13, including creative, athletic, and educational projects, leading to a 50% increase in camper retention and sustained engagement throughout the camp season.
- Partnered with co-counselors to manage group dynamics, seamlessly executing activities while providing personalized attention to campers, and regularly communicating progress and updates with parents and instructors.

PROJECTS:

U.S. Energy Consumption vs. CO2 Emissions, Data Science

- Collaborated with a team to develop research questions, interpret data findings, and present comprehensive insights, showcasing effective teamwork, data analysis skills, and clear communication of complex information.
- Utilized Tableau to analyze and visualize trends in U.S. energy consumption and CO2 emissions, creating detailed line charts that illustrated the relationship between energy usage and environmental impact.
