EXPERIENCE

Creek Side Deli, Philadelphia, PA

June 2021 – Aug. 2025

Cashier

- Support daily food service operations for a busy neighborhood deli serving a diverse customer base in North Philadelphia.
- Greet patrons, take orders, and process transactions while maintaining accuracy and efficiency.
- Prepare meals, uphold food safety standards, and maintain a clean and organized kitchen.
- Restock supplies, manage inventory, and assist in training new staff to improve workflow.

Mobile Net, Philadelphia, PA

July 2020 – Jan. 2025

Electronic Technician

- Service and repair electronic devices for a local electronics repair business serving individual and small business clients.
- Diagnose and troubleshoot device issues, recommend repair solutions, and perform assembly and maintenance.
- Manage inventory of parts and tools and provide technical support to ensure timely project completion.

Nazareth Academy High School, Philadelphia, PA

Sept. 2022 – May 2024

Academic Tutor

- Provide academic support for high school students, including non-English-speaking learners, across subjects such as English, Chemistry, Spanish, and U.S. History.
- Assist students with classwork and assignments, helping them strengthen understanding of key concepts.
- Adapt teaching approaches to accommodate different learning styles and language backgrounds.

EXTRACURRICULAR EXPERIENCE

Member, Association for Computing Machinery (ACM)

September 2024 – May 2025

Member, Association for Information Systems (AIS)

August 2025 - Present

PROJECT EXPERIENCE

[Super Bootleg Brothers](#), Introduction to Problem Solving and Programming in Python

August 2024 – December 2024

Team Lead

- Developed a side-scrolling platformer inspired by Super Mario Brothers, featuring multiple levels, obstacles, and storyline text.
- Designed, coded, and tested gameplay mechanics.
- Planned concept, built character controls, created levels/obstacles, and polished final game.

[Password Security Calculator](#), Web Application Development (MIS 2402)

January 2026 – May 2026

- Built a password strength calculator using JavaScript and HTML to evaluate security risk
- Developed logic to analyze password complexity, length, and entropy indicators
- Created a dynamic user interface with real-time strength scoring and feedback

- Applied cybersecurity principles to promote secure password practices
- Debugged and tested application to ensure performance and reliability
