RELEVANT EXPERIENCE

RSM US LLP, Philadelphia, PA

Technology Risk Consulting Intern | June 2026 – Present

- Reviewed and organized audit evidence supporting IT control areas including privileged access, change management, segregation of duties, and backup processes.
- Mapped supporting documentation to controls using SharePoint, CaseWare, and Microsoft 365 while identifying gaps and inconsistencies in evidence.
- Applied risk-based thinking to assess control relevance, improve workpaper accuracy, and support the technology risk assessment process.

TEMPLE UNIVERSITY – College of Science and Technology, Philadelphia, PA

Computer Lab Consultant | November 2025 – Present

- Provide technical support to students and faculty by troubleshooting hardware, software, and network access issues.
- Monitor lab systems and equipment while supporting compliance with university IT security policies.

AVNA LEARNING CENTER, King of Prussia, PA

Testing Operations and Administrative Coordination Intern | June 2025 – August 2025

- Administered and monitored digital testing platforms while supporting secure access, candidate documentation, and daily operations.
- Reconciled candidate data from PSI, Talogy, and Pearson systems into internal records, improving data integrity and reporting reliability.

FOX AFRICAN AMERICAN BUSINESS ASSOCIATION, Philadelphia, PA

Communications Chair | January 2025 – Present

- Develop communication strategies, manage outreach
- Design weekly newsletters to increase student engagement and organization visibility.

PROJECTS

Founder & Software Engineer — Intencity | September 2025 – Present

- Design and develop a location-based social platform using React Native, Next.js, Mapbox, Supabase, and cloud-based architecture.
- Build scalable backend systems, authentication, real-time data features, and mobile/web user experiences.

AWS Cloud Infrastructure Project — Temple University, MIS 3406 | September 2025

- Designed a secure AWS Virtual Private Cloud with public/private subnets, network segmentation, EC2 instances, Security Groups, and Network ACLs.
- Hosted static web content on Amazon S3 and accelerated delivery through AWS CloudFront while enforcing access policies.
