EDUCATION

Temple University – Fox School of Business

Philadelphia, PA

Bachelor of Business Administration: Management Information Systems

May 2026

PROFESSIONAL EXPERIENCE

Weber Display & Packaging

May – August 2024

General Helper

Philadelphia, PA

- Streamlined production documentation using Kiwi Planner ERP/MES software, tracking and managing data for corrugated shipping containers.
- Co-trained new employees, teaching productivity-enhancing methods that sped up the manufacturing of corrugated shipping containers, saving the company resources and time.
- Processed, calculated, delivered, and tracked orders for 80+ shipments per month, generating documentation and ensuring accurate and timely delivery.
- Handled 40,000+ corrugated boxes daily, including monitoring the production amounts and ensuring quality control.

Lotus Staffing Solutions

June – August 2023

Assembly line worker

Warminster, PA

- Operated all steps of the assembly line, from packing individual packets to boxing items, palletizing, and wrapping for the shipping department, ensuring timely and efficient production.
- Trained a new team member on the assembly line process, including palletizing patterns, height order instructions, and product labeling, which improved team productivity and accuracy.
- Identified and resolved machinery issues, ensuring optimal performance in the packing operation, reducing downtime.

VestedIn (formerly WPFISI)

June – August 2020

Internship

Remote

- Participated in the WesGold Fellows program, a paid internship focused on personal and professional development, financial literacy, real estate, and entrepreneurship.
- Collaborated with fellow students to create presentations and identify issues and solutions for real-world problems, enhancing teamwork and problem-solving skills through communication.
- Developed hands-on experience in personal finance, demonstrating initiative in exploring financial literacy and implementing practical strategies such as SMART goals.

PROJECTS

Cloud Native Toll Calculator Prototype

November 2024

- Developed a cloud-native toll calculator using AWS services and multiple APIs, integrating Google Distance Matrix API to calculate travel distance and estimate driving time between interchanges and AQICN API for real-time air quality data.
- Implemented Lambda functions and API Gateway for efficient request handling, fetching toll costs and interchange details from an RDS (SQL) database.
- Enhanced decision-making for users by providing travel and environmental data.

SKILLS

Software: HTML, CSS, JavaScript, jQuery, Node.js, Python, Pandas, Beautiful Soup, SQL, MySQL, AWS, Lambda, DynamoDB, RDS, EC2, S3, IAM, Windows, Linux, Tableau
